Resistance Stiffens As Bolsheviks Continue Intimidatory Murder Attacks REDS SET UP PUPPET REGIME AS FINNISH CABINET RE-FORMS

HOPELESS EFFORT TO REACH PEACE

SPECIAL TO THE "TELEGRAPH"

HELSINGFORS, DEC. 1 (UP).—THE SOVIET UNION RENEWED ITS ATTACKS FROM THE AIR, LAND AND SEA ON FINLAND TO-DAY AS A NEW FINNISH GOVERNMENT HEADED BY M. RISTO RYTI, GOVERNOR OF THE BANK OF FINLAND, WAS ESTABLISHED IN AN APPARENTLY HOPELESS EFFORT TO REACH A SETTLEMENT WITH MOSCOW.

The new Finnish Government is apparently designed to include all parties, but lack of communications with Moscow have rendered the immediate resumption of talks extremely unlikely.

PAASIKIVI INCLUDED

HELSINGFORS, Dec. 1 (Reuter).—The Cabinet includes M. Paasikivi as Minister without Portfolio.

M. Paasikivi was the special representative of Finland in the recent talks in Moscow.

M. Tanner, formerly Minister of Finance, becomes the Foreign Minister.

M. Erkkö, former Minister of Foreign Affairs is excluded.

SOVIET PUPPETS

SPECIAL TO THE "TELEGRAPH"

LONDON, Dec. 1 (UP).—Radio Moscow announces that a new Finnish Peoples' Government has been established at Terioki.

It comprises "rebel Finnish soldiers and Leftist Finnish politicians."

PLEDGED TO OVERTHROW HELSINGFORS REGIME

MOSCOW, Dec. 1 (Reuter).—The new "Finnish government" is pledged to overthrow the Helsingfors regime. It was formed to-day at Terioki, a Finnish frontier town occupied by the Red Army.

According to the official "Tass" agency, it has been established by representatives of the Finnish Left Wing parties and revolting Finnish soldiers.

The new government, which is described as the "People's Government of the democratic Republic of Finland," broadcast a proclamation calling the Finns to rise against the "tyrants and war-mongers" in Helsingfors.

The proclamation urged Soviet forces to aid in this task and announced the creation of a Finnish "People's Army."

Its aims are stated to include a Soviet-Finnish Pact of mutual assistance.

Finland's Request

LONDON, Dec. 1 (Reuter).—Finland has asked Sweden to look after her interests in Moscow.

This request has strengthened the belief that the new official government will seek to come to terms with Moscow, but there is no official support for this.

The Finnish Legation in London denies that there is any question of surrender.

The Finnish Legation is still in Moscow, but telephone communications with Helsingfors has been cut off.

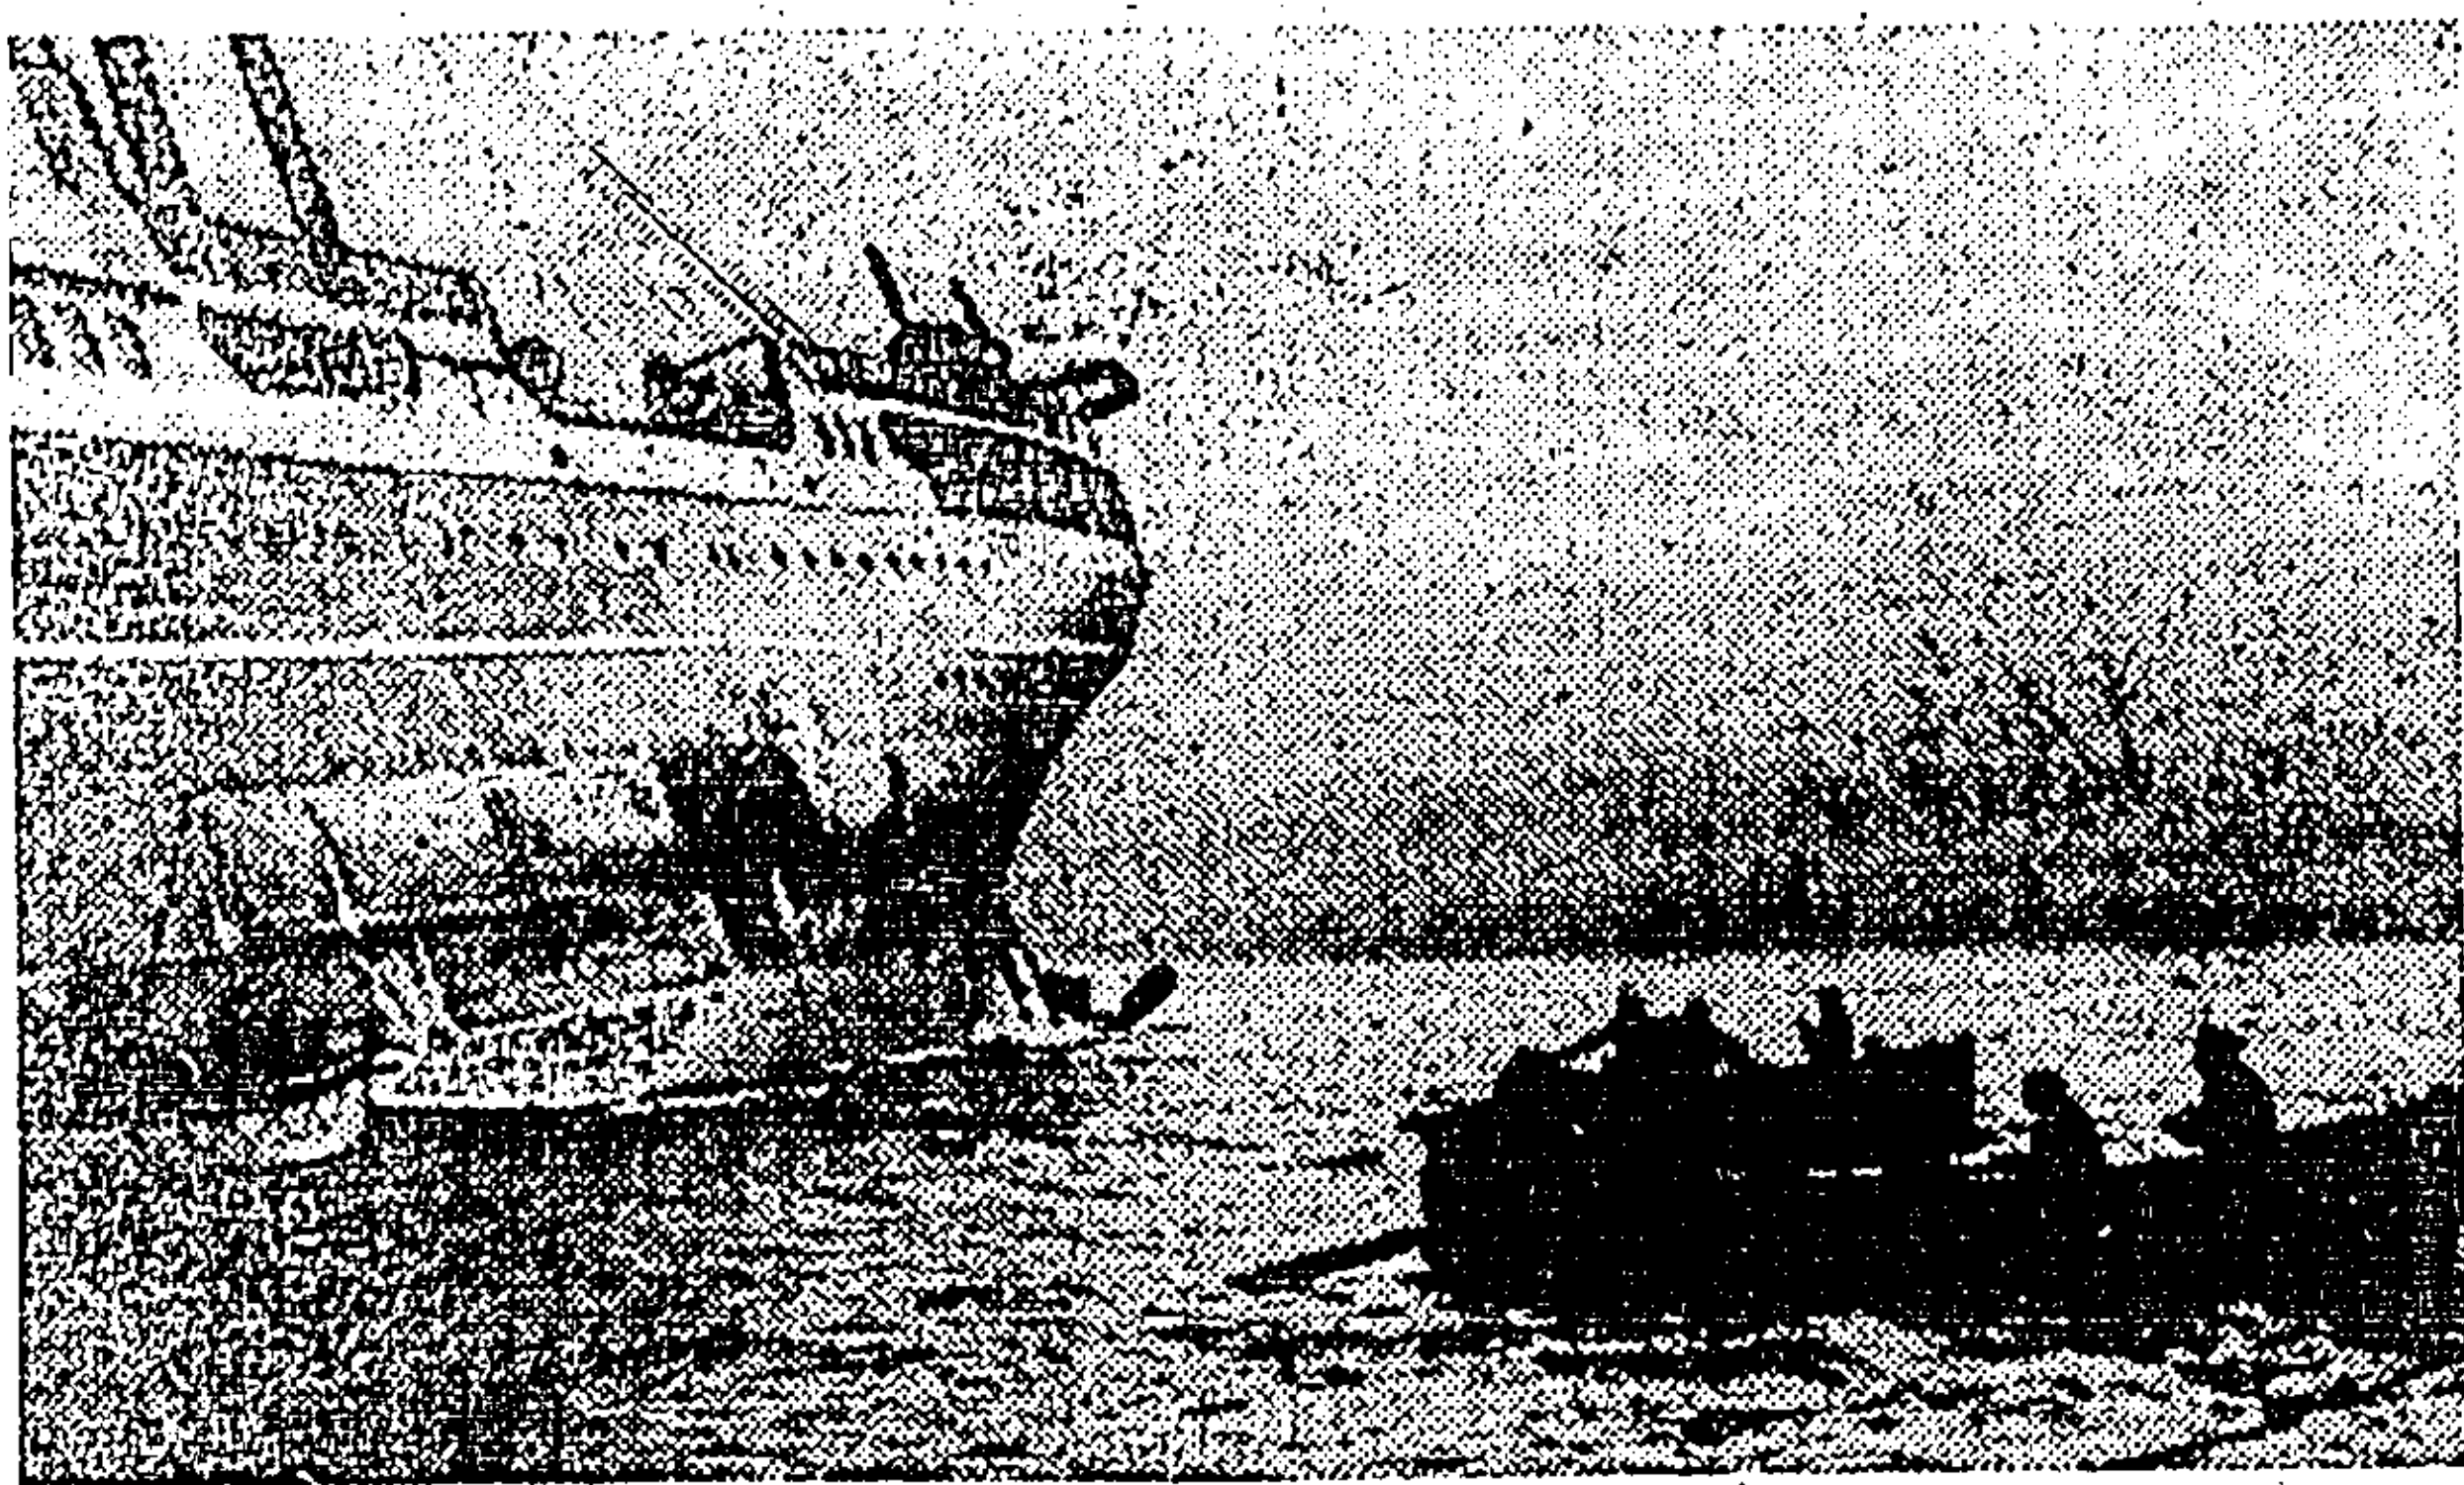

Finns Listen To Moscow

HELSINGFORS, Dec. 1 (UP).—The Finnish people listened to Moscow Radio throughout the day for indications from the Soviet Foreign Office. There has been no communication with Moscow since last Thursday.

It is said that no armistice has been reached.

INCESSANT AIR RAIDS CONTINUE

SPECIAL TO THE "TELEGRAPH"

HELSINGFORS, Dec. 1 (UP).—Soviet airplanes raided the Finnish capital three times to-day.

Fifteen bombs were dropped in the workmen's district.

Nazis Pointed Way

MADE THE INVASION POSSIBLE

Roosevelt Statement

LONDON, Dec. 1 (Reuter).—A special commentary issued to-day states that the Soviet attack on Finland would be impossible without German acquiescence and unless Nazi technique had pointed the way.

Finland's independence is largely due to Germany, and Finnish civilization has much in common with Germany's.

When the Soviet and German policies were apparently in conflict, Germany would never have permitted the invasion.

All reference to the invasion is excluded from the German Press.

Military and naval circles in Berlin regard the Soviet action with profound misgiving.

The Italian attitude, by contrast, is openly sympathetic to Finland, and it is reported that volunteers desire to enlist.

Roosevelt Speaks

WASHINGTON, Dec. 1 (Reuter).—President Roosevelt has made a formal statement to the effect that the Russian invasion of Finland is a profound shock to America and that it has jeopardized the right of mankind to self-government.

"All peace-loving peoples would condemn the new resort to military force as a violation of international law," the President said.

Will Confer With Congress

WASHINGTON, Dec. 1 (Reuter).—President Roosevelt stated that he would probably discuss the Baltic situation with Congress Leaders by telephone, but he did not contemplate any formal conference.

The President added that Russia had not yet replied to his note offering aid.

Norwegian Feelings Mount

SPECIAL TO THE "TELEGRAPH"

OSLO, Nov. 30 (Dome).—Anti-Soviet feelings are rapidly mounting in Norway as the result of the Soviet invasion of Finland.

Excited crowds stormed the Communist newspaper office, which published sympathetic articles about the Soviet action against Finland, and shattered window-panes.

The shocking effects of the Soviet action are becoming universal on the North European nations.

World's Press Condemns

Stalin Stands Indicted

Has Not One Voice
In Sympathy

LONDON, Dec. 1 (Reuter).—The Russian invasion is condemned by the Press of the world.

Practically every English paper draws a comparison between the Russian attack on Finland and the German invasion of Poland.

The "Times" says that the hypocrisy of the Soviet claim makes the brigandage of the 18th century partition of Poland seem pale by contrast.

The Only Difference

The "News Chronicle" says that the only difference between Hitler and Stalin is that Hitler did it first.

The "Daily Mail" says that Stalin is not quite as clever as Hitler as his excuses are even flimsier.

He could point to no oppressed minorities nor could he claim "Lebensraum."

The Paris Press points to the view that the Soviet attack is part of the programme of expansion mutually agreed upon by Berlin and Moscow.

One More Shameful Act

"Le Matin" calls it "one more shameful act to add to all the others."

Other papers express fears for the safety of Sweden and make reference to the reports that Moscow has

HEAVY FIGHTING IN MANY AREAS

SPECIAL TO THE "TELEGRAPH"

HELSINGFORS, Dec. 1 (UP).—Soviet troops have bombarded and attempted a landing at Hangoe Island. No details have been received.

"Heavy fighting is in progress" in the Karelia area.

FLEET BOMBARDMENT

The Soviet fleet shelled Aabo. Several hundred shells were fired on the town.

Soviet forces have occupied Hogland and Sieskari Peninsula.

They have also occupied Terijoki.

Since shortly after 1 p.m. Russian bombers have been attacking coastal fortifications and towns.

Soviet Destroyer Is Sunk, Claim Finns

The Finns claim to have sunk one of the three Soviet destroyers bombarding Russian forts.

It is stated that the fort scored a direct hit in the duel between the fort and the warships, which continued all afternoon.

It is also officially claimed that ten Soviet tanks were destroyed in a frontal battle at Joutselka, on the Karelian Isthmus.

Warships In Action

HELSINGFORS, Dec. 1 (UP).—Unofficial reports state that Red warships are pounding at least two points on the southern coast.

Finland reports claim that Finnish troops are putting up a stout resistance to the Red Army in Karelia, but no official confirmation has been received.

Unofficial reports claim that severe fighting is in progress along the Gulf of Finland coast, but meagre advice give no indication whether Soviet troops have successfully landed at Hangoe to the east, and Borga, west of Helsingfors.

Military Activity At Standstill

LONDON, Dec. 1 (Reuter).—It is declared by the Finnish Legation that the latest information shows that military activity is almost at a standstill.

It is confirmed that the Russian advance in the Isthmus of Karelia and in the north of Lake Ladoga has been successfully halted.

Will Encounter Difficulties

TOKYO, Dec. 2 (Dome).—Because of the geographical difficulties in Finland where there are many lakes and forests and winter transport facilities are lacking, Soviet Russia will not be able to conquer Finland as easily as Germany subjugated Poland, according to Lt.-Col. Yozo Miyama, outgoing Japanese Military Attaché at Helsingfors, who has just returned home.

Lt.-Col. Miyama told Japanese reporters that the outbreak of a Soviet-Finnish war was inevitable. "The time is not so opportune now for Soviet action in Finland, which has strategic advantages in winter," the Army officer said.

The Karelia Isthmus is almost entirely covered by forests, while more than 30,000 lakes in the country will hamper the advance of Soviet troops.

The Helsingfors airport is about a 20-minute drive from the city, which

Evacuation Ordered

People To Quit All
Important Cities

SPECIAL TO THE "TELEGRAPH"

HELSINGFORS, Nov. 30 (Dome).—In view of the sustained bombing attacks by Soviet aircraft on important cities in Finland, the Finnish Government on Thursday night ordered a compulsory evacuation of non-combatants from all important cities.

Roads Crowded

HELSINGFORS, Dec. 1 (Reuter).—All roads to the north from Helsingfors are crowded with thousands of refugees, who spent the night sleeping in the forests and roadsides.

The roads are covered with ice and snow, making traffic difficult.

LATEST

PEACE PLAN OFFERED

STOCKHOLM, Dec. 1 (Dome).—A report from Helsingfors states that the new Finnish Government is making desperate peace overtures to Moscow through the American Embassy at Moscow.

The report says that Finland will comply with the original Soviet requests, including the cessation of the Karelia Isthmus and the construction of a Soviet naval base at Hangoe.

The peace plan is understood to have been sent to Moscow through the American Embassy.

Air Raid Siren's Shriek In Sweden

STOCKHOLM, Dec. 1 (Reuter).—The Finnish Legation has created a special department to deal with the stream of Swedes wishing to enlist in the Finnish Army.

The war approached Sweden when an air-raid alarm was sounded at Torneo, and Soviet planes were observed at Sjos Island, twelve miles out at sea.

Professor Sikkonen, Finland's most famous electro-technician, was found dead in the ruins of the bombed Technical High School.

RED PARACHUTISTS LAND AT PETSAMO

SPECIAL TO THE "TELEGRAPH"

HELSINGFORS, Dec. 1 (Dome).—Refugees arriving from Petsamo, the northern coast city, state that Soviet troops descended by parachute near the historic Pechenga monastery, about ten miles south of Petsamo.

The parachute army, by cutting the Finnish defences in the north and south, captured at one stroke the port city of Petsamo.

The Finnish defenders offered a stiff resistance, and heavy fighting took place before the city fell.

Features of the FRIGIDAIRE Latest Cold Wall Models

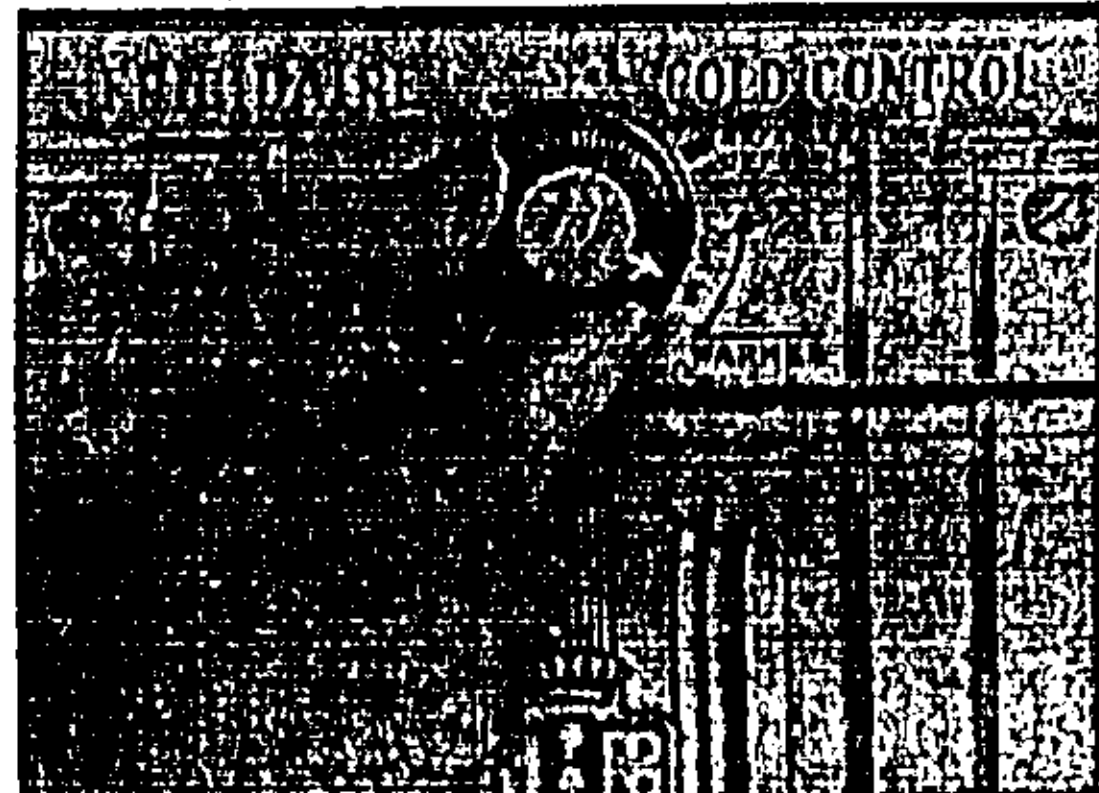

The New Quickcube Tray will find favour with everyone. It increases the capacity of the freezer for freezing desserts, salads and ice cubes; also for storage of bulky frozen articles and highly perishable foods.

Three in one. All three functions of the Cold Control, the Automatic Reset Defroster and the Master Switch are now controllable from a single dial which is known as the Frigidaire Uni-Matic Control.

Here's an added refinement that users will appreciate: a new Super Freezer Door which closes at a finger's touch, but, most important of all, it opens all the way and stays open until you want it to close.

Storage space for the extra ice cubes needed for parties is an added use for the Meat Tender. It holds all the cubes that can be frozen at one time, thus doubling the ice cube capacity of the refrigerator.

PRIVATES X, Y AND Z (OF SURREY) ARE ENJOYING THE WAR

From DAVID SCOTT, "News Chronicle"
Correspondent with the French Army

SOMEWHERE IN FRANCE, Nov. 17.
TO-DAY somewhere in the Maginot Line and with-
in sound of the guns I found three men who are thor-
oughly enjoying the war.

They are three soldiers of a famous British infantry
regiment, and their names may be discreetly given as
Private X, Private Y and Private Z.

Their job is to look out for enemy aircraft crossing the line
and warn the British fighter squadrons and anti-aircraft batteries
many miles away. Their post is on the top of a hill overlooking
a wide stretch of open horizon.

On this hilltop the three young Englishmen—there were three
more off duty somewhere—have their own aircraft ranging ap-
paratus, carefully camouflaged, and their own wireless station with
its two slender collapsible masts. As they stood on guard they did
not realise, perhaps, that 100
feet beneath them a huge under-
ground fortress spread its
chambers and galleries.

They Like French Food

Privates X, Y and Z all came from
Surrey. They were volunteer mem-
bers of a Territorial searchlight bat-
talion. But already they know a
great deal about war.

The French captain asked them
carefully if they liked the French
food—they mess with French fort-
ress troops—and they smiled ap-
preciation.

"It's lovely," they said.
"Do you like drinking wine with
your meals?" asked the captain.
"Well," said Private Y cautiously,
"we're getting used to that."

The advanced post I visited in a
wood opposite on October 10 distin-
guished itself when the Germans at-
tacked.

First the Frenchmen were shelled
in their trenches on the edge of the
wood, but no one was hurt. Then
the shelling stopped and they saw a
company of German infantry coming
up the slope towards them.

Their young lieutenant ordered
them on no account to open fire. But
when the enemy was within 25 yards
he told them to shoot their hardest.
With rifles and a machine-gun the
Germans were mown down, losing at
least 10 dead and many more wound-
ed. The Frenchmen did not lose a
single man killed or wounded.

Flight Over Germany

My main rendezvous with the
French Army this time is in a famous
town. Walking about the streets one
is jostled by a new crowd of soldiers
in blue and khaki who between them
make this provincial town even more

KILLED BY GESTAPO Professor Critic Of Hitler

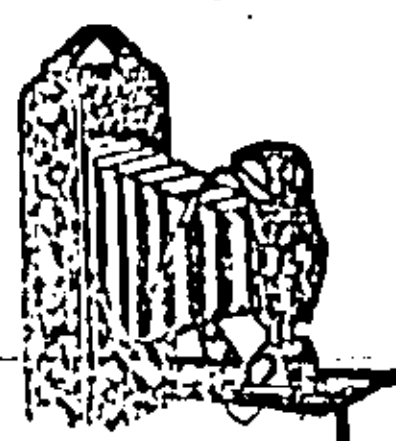

PARIS.
Prof. Benedikt Schmittmann, of
Cologne University, one of the
most active leaders of the Federal
movement in Germany, has been
assassinated in a Gestapo prison,
according to a Havas Agency des-
patch from the German frontier.
Prof. Schmittmann resigned his
seat in the Prussian Diet to defend
his ideas with the pen. His theory
was that as long as Prussia do-
minated Germany neither liberty
in the country nor peace in Europe
would be assured.

Hitler's rise to power was the
beginning of life imprisonment and
persecution for the professor.
It is probable the Havas des-
patch adds, that his death is due
to the fact that his ideas are gain-
ing new life at the present mo-
ment.

These lads, each alone in his
fighter, had flown into Germany over
and beyond the battle zone. At
15,000ft. they had been sighted and
fired on by the German anti-aircraft
batteries.

They were full of respect for the
German marksmanship.

SPOTLIGHT ON GERMANY

Berliners Cheer Soup, On the Screen

WHEN an advertisement for a soup made from beef was thrown on the screen in a Berlin cinema it was greeted by prolonged clapping and cheering, stated the Berlin correspondent of the Danish newspaper "Berlingske Tidende" in an article on conditions in Germany.

There is not much meat, he wrote and it is very difficult to get one's ration each week of just over half a pound, supplemented by about seven ounces of sausage.

Housewives are stated to have formed themselves into groups to save time in the queues. Each night they meet decide what they will try to get to eat the following day, and then select one of their number to do the waiting for their combined requirements.

Several hundred German anti-aircraft guns have been placed along the German side of the Dutch frontier, according to Germans and Dutchmen who regularly cross to and from Holland.

The Germans fear British air attacks on the Ruhr, they state. They also assert that popular sentiment in the Western industrial districts is most depressed. They declare that the Gestapo are most active and keep the closest watch on factory workers returning home.

People reaching Basic from Germany say the food conditions in Berlin are lamentable. Bread is of a bad quality.

Hotels are nearly empty. One great hotel has four guests.

What is claimed to be a proof that conditions are bad in the Steinfried Line is published in the "Paris Midit" which says the "German" wireless stations are appealing to the people to send tubes of aspirin, pills for rheumatism and cough lozenges to men who have been mobilised.

BIBLE WITH 850-WORD VOCABULARY

PREPARATION of a new translation of the Bible into Basic English, which confines itself to 850 words, has not been interrupted by the war, and it is still hoped that next year will see the publication of the New Testament.

Mr. S. C. Roberts, secretary of the Syndics of the Cambridge University Press who have been engaged for ten years on the major task, told the "News Chronicle" that the revision of the draft of the New Testament is proceeding, and the final text is in preparation.

"It is being dealt with by a number of scholars," he said. "Until the revision is finished and the final text adopted it would be unfair to quote comparisons with the Authorised or Revised versions of the Bible."

EASY FOR FOREIGNERS

"As to publication of the New Testament in Basic English, we hope it will appear some time next year. We have to remember that in those days one cannot look more than a fortnight ahead in regard to supplies. "However, if paper is available, we shall print it."

Gilbert and Sullivan on Radio

AFTER years of negotiation to overcome copyright difficulties, the B.B.C. has at last obtained permission to give a studio performance of a Gilbert and Sullivan opera.

The first will be "Trial by Jury" with Derek Oldham in the lead. The B.B.C. music production unit, together with the Theatre Orchestra, will be directed by Gordon McConnel and Stanford Robinson.

It is hoped that a large number of Gilbert and Sullivan broadcasts will follow.

RESIDENTS SEE BRITISH SHIP SINK

LONDON, Dec. 1 (Reuter).—The British steamer, Dalrym, 4,558 tons, was mined about six miles off the south-east coast.
The crew were saved.
The vessel is slowly sinking in full view of watchers on the promenade of a seaside resort.

Merchantman Versus U-Boat

Remarkable Duel Is Bolatedly Revealed

LONDON, Dec. 1 (Reuter).—The story of the first straight fight in this war between a merchantman and a U-boat is revealed by the award of the O.B.E. to Captain Albert White, master of the steamer Stonepool.

The "Gazette" says that sighting the U-boat, the Stonepool manned her gun and for two minutes exchanged shot for shot with a gun of a similar calibre.
There was a fair rate of fire and the shooting was good.

May Have Hit Sub.

The fifteenth shot may well have hit or damaged the U-boat, whose 10th or 11th shot holed the Stonepool two feet above the water-line.
By resolute and skilful action, the master saved the ship.

Discipline was excellent, and the gun-layer and the gun's crew did very well.
The O.B.E. is also awarded to Captain Farrar, master of the Baharistan, and Commander Grayson, master of the Karama, who when attacked by U-boats, showed bold decision and courageous skill, thereby saving the vessels.

Finland Steamer Sunk

LONDON, Dec. 1 (Reuter).—The Finnish steamer, Mercator, hit a mine off the Swedish coast this morning, and sank in six minutes.

One member of the crew was trapped below decks and is believed to have been killed.
The survivors were landed at a Scottish port later.

As one boat left the sinking ship, it captured several of the men, and managed to get back into the boat, while the others clambered on to a raft, which had drifted clear of the Mercator.

One of the boats was towed into port by a motor fishing vessel.

Uskmouth Survivors Landed

LONDON, Dec. 1 (Reuter).—Survivors of the British steamer Uskmouth have been landed in England.

They said that their ship was sunk by the shelling of a U-boat, which opened fire without warning as the men were taking to the boats.

The Uskmouth was shelled for nearly three hours and sank in flames.
The destroyer which rescued them was itself attacked by a U-boat when it neared the south-east coast of England.

Three torpedoes were fired at it, but they went wide of the mark.
The destroyer dropped depth charges over and around the spot where the submarine was seen.

You Can't Get Blood Out Of Stone

Dr. Benes And Nazis

SPECIAL TO THE "TELEGRAPH".
LONDON, Dec. 1 (Reuter).—When informed of the German wireless announcement that he will be tried publicly in absentia on charges of fraudulent enrichment and co-operation with foreign Jewish capitalists, Dr. Eduard Benes, former President of Czechoslovakia, who is living in London, remarked:
"It is very interesting," and added with a touch of wistfulness in his voice, "The Nazis already have confiscated everything the Benes family had, so it does not matter very much now."

ILLEGALLY HELD BY MILITARY

SPECIAL TO THE "TELEGRAPH".
DUBLIN, Dec. 1 (Reuter).—The High Court, on a Habeas Corpus application, has ordered the release of a man named James Burke, who was detained in military custody.
The Judge held that the claim to intern on suspicion without a trial under the recent Offences Against the State Act was inconsistent with the constitution.

Tin Quota Fixed

BOMBAY, Dec. 1 (Reuter).—The International Tin Committee has fixed the quota for the first quarter of 1940 at 100 per centum.

General Gort Visits The British Lines

HIDDEN HOWITZERS READY TO SPEAK

From PHILIP JORDAN
"News Chronicle" War Correspondent with the British Expeditionary Force
FRANCE.

SO that he might not be kept waiting, three lunches were cooked at different times for General Gort when he inspected a famous Highland regiment billeted in one of the villages not far from his headquarters recently.

The men turned out to greet him in the kit; and this is taken here as an indication that the rumour that the kit is to be abandoned is false.

Before making his inspection, Lord Gort spent more than an hour at Corps headquarters conferring with General Dill.

In the meantime, howitzers of great size as well as long range field-guns are taking up their positions behind the British lines.

Hidden Batteries

A few weeks ago the British Army and its equipment were all but invisible. To-day all that is changing, and the British are making the roads come alive again.

This morning they were filled with long streams of six-wheeled 30 h.p. trucks, each drawing a 10-ton howitzer to supplement the batteries already in place.

Even when you know where these batteries are hidden they are hard to find, so carefully have their emplacements been chosen. You could pass within a few yards of a gun, whose pneumatic-tyred wheels are more than 5 ft. high, and still not know it was there.

From even a short distance away the guns look like haystacks erected by madmen; and it is only when you get beneath their camouflage, with map and compass in your hand, that you can realise with what skill their positions have been drawn.

Clover Camouflage

Nothing comes amiss to the camouflage man: old beechwood logs, hay, trees, turf, and even—yes, even in one place—a hut full of Belgian hares. It is no easy job to find a solid resting-place for these big howitzers, that can each throw a huge shell every two minutes.

In the element mud that gets worse each day it is easier to sink such guns right up to the axle than it is to find and build an adequate platform for them.

Your modern gunner needs to be a mathematician before he can find else, and a pretty quick one at that.

Bombardier's "Office"

In a tiny shed, heated by a broken stove, "scrubbing" from no one knows where and lighted by only one window, a bombardier of the most forward battery has established his office.

He has with him an operator for his portable telephone switchboard, through which he can receive his orders, and can speak to each gun in the battery as well as to his observation posts.

His maps and plans are laid out on a huge drawing-board that allows him to see every inch of land which his guns are capable of hitting.

Before he ranges and sights his gun he has a great many factors, other than distance and direction, to take into account: course and direction of wind, height of barometer, temperature of the firing charge, are but a few.

Push-Bike Mobility

A good man can mix all these up in a few seconds and give orders that will enable the men working the gun to hit a pin-point target in a few minutes, provided that the gun is correctly charged.

But in spite of their size and weight these guns and howitzers are extremely mobile.

"No more trouble than a push-bike," one of the gunners said to-day. He should know. He is a Reservist, and in the last war had experience of guns for less mobile than these.

They move silently on their balloon tyres, and can be pulled easily across open country.

I have seen some really happy men since I came here, but the gunners seem to enjoy themselves more than the others. Perhaps it is because they do not have to dig quite so frequently. But they do have the same grouse as all the others—no change of clothes or of boots. That is a real hardship in this weather.

Shell Case As Alarm

It is a queer world that all these highly-trained men and all these complicated instruments inhabit. Here, in these little villages, which have no water and no light, are all the most accurate inventions of the century.

In one village through which I passed to-day there is a listening post for distant aircraft. It is one of the latest and most perfect of its kind.

Almost next to it is the village air-raid alarm. That is an old shanty from the last war tied up with a bit of string.

When the aeroplanes come some-one clouts it with a piece of lead piping.

MADE THE INVASIONS POSSIBLE

(Continued from Page 1.)

ing the good offices of the United States in settling the dispute, made before the invasion occurred.

The planing of the Administration publicly and officially on the side of Finland is the first of a series of steps being discussed to make known America's attitude with regard to the action of the Soviets.

There is still a possibility that the United States Ambassador may be recalled for consultation, and even then diplomatic relations may be severed.

Stage Set For Clash

SPECIAL TO THE "TELEGRAPH"

LONDON, Dec. 1 (Reuter).—The Russo-Finnish situation, while distressing for Finland, also confronts Germany with a most disconcerting state of affairs according to a trustworthy source in London.

Russia's further advance in this area, it is stated, means that the Soviets may ultimately control not only the Baltic but the Gulf of Bothnia, and thus cut off the Reich from Sweden's deposits of iron ore, which is indispensable as war material.

It would seem, this source adds, that the stage is being set for an ultimate clash in that part of the world.

The German Navy must be especially concerned by this. If the Baltic states must be controlled either by Russia or Germany, it is plain that so far Russia is gaining all the controls.

Roosevelt's Denunciation

SPECIAL TO THE "TELEGRAPH"

WASHINGTON, Dec. 1 (UP).—President Roosevelt has denounced Russia for spreading a "policy of force" and for "wanting disregard of the law."

He said that the news of the Soviet bombing of Finnish territory was a "profound shock to the government and people of the United States."

He said he would probably confer telephonically with Congressional leaders regarding developments.

"The present trend of force makes insecure the independent existence of small nations on every continent and jeopardises the rights of making for self-government," the President declared.

Notes Ignored By Soviets

He issued his statement in printed form at a press conference exhibited concern over the turn of affairs in the Baltic states. He said he had not yet received a reply from Russia regarding the United States' offer of mediation.

He replied to his message against immediate bombings.

The President refused to comment upon or reveal his future policies.

His statement paid tribute to the Finns for their "long, honourable and wholly peaceful record," which had won the respect and warm regard of Americans.

HOPELESS EFFORT TO REACH PEACE

(Continued from Page 1.)

proposed through a communication sent to Moscow via Sweden.

Official sources decline to comment on rumours that M. Kajander and M. Erkkio resigned due to internal disagreement on policy, which is said to have involved the cession of Hangoe Island to the Soviets.

"Domel" adds that the resignation of Premier Kajander and his Cabinet has been made known to the Soviet Government.

New Cabinet's Policy

LONDON, Dec. 1 (Reuter).—According to reports reaching London, the Finnish Government will continue to take all measures to ensure the country's independence.

It will, however, be prepared to open negotiations to settle the dispute with Russia by peaceful means.

Soviets Keep Quiet

MOSCOW, Dec. 1 (Reuter).—The Soviets have issued a communique which merely denies that Soviet planes have bombed towns and inhabited places but gives no details of any operations.

The communique is mainly taken up with the bogus "People's Government," which is said to have been formed at Terijoki, a small town just inside the frontier.

Several references to this bogus government tend to support the view that it is being organised to appeal for help from the Soviet Government, which can then point out that it is "acting in accordance with the desires of the Finnish people."

Basis For Peace

SPECIAL TO THE "TELEGRAPH".
BERLIN, Dec. 1 (Reuter).—The basis on which Soviet Russia would immediately cease military operations and be prepared to begin peace negotiations is believed to be defined in a proclamation issued by the Central Committee of the Finnish Communist Party.

According to a Moscow telegram to an official of the German news agency, it includes:
1.—Formation of a "Democratic People's Government";
2.—Conclusion of a Soviet-Finnish Pact of Mutual Assistance;

3.—Certain changes in the structure of the Finnish state and Finland's economic life, "but by no means the Sovietisation of Finland."

THIS DRAMATIC PICTURE tells, better than any eye-witness could, the rigid discipline of the Japanese seamen aboard the Terukuni Maru as their ship commenced to founder after being hit by a Hitler mine. There was no panic whatever.

THE SEAS CREEP UP.—Starboard hatches of the Terukuni Maru are awash as she begins to sink. These photographs were taken by the ship's photographer, Mr. K. Asami, who went about his work with a coolness equalling that of the crew.

HEELING OVER.—The merchant flag of Japan was painted on the port side of the crack Japanese liner. The ripped plates are Germany's answer to such neutral warnings.

Presbyterian War View Given

SALT LAKE CITY. DR. WALTER D. HOWELL, Secretary of the Presbyterian Board of Christian Education, declares his Church will never again be "misled" into approving American participation in a foreign conflict.

Recalling in an interview that the Church endorsed United States entry in the World War, the Philadelphian exclaimed: "That was a mistake! We were told, and believed that the last war was a 'war to end all wars' and to establish for all time the security of Democracy. As such we approved the entry of the United States. In fact, we virtually 'blessed' the war throughout our churches. To-day we know how false that theory was and how grossly we were misled. We make no secret of our refusal to believe any idealistic arguments for participation by this Country in someone else's fight."

Mr. Emmanuel Brook David has been reassigned from the Combatant Group to the General Group for Essential Services in the Hongkong Defence Reserve under the provisions of the Compulsory Service Ordinance, states a Government Gazette notification.

Warnings To Mariners Singapore Air Raid Precautions

The following warnings to mariners issued by the Naval authorities, are published in the "Government Gazette" to-day. During dark hours, foreign ships are cautioned not to approach ports between Lat. 51.20 deg. N. and 54 deg. N. on the East Coast of England. Air Raid Warning instructions to shipping in Singapore harbour are also issued.

Mariners are informed that on receipt of an air raid warning, the following signals will be displayed at the Port War Signal Station at Mount Faber:

Day And Night Signals

By day:—two red buoys hoisted one above the other. By night:—the indications that an attack is imminent will be the extinction of all lights ashore and the sounding of air raid siren alarm (a continuous fluctuating blast lasting approximately three minutes).

Warnings will also be passed by telephone to Pulo Bukom and Pulo Sebarok.

On receipt of the above indications all movement within the Ports is to cease and ships are to extinguish all lights and remain in darkness until the "all clear" signal is given ashore (a continuous blast at a steady pitch lasting approximately three minutes). The signal "Port Closed" will not be made.

WESTERN FRONT REPORT

PARIS, Dec. 1 (Reuter).—A Communiqué issued to-day states that there were patrol encounters and reciprocal artillery action at various points on the front.

SUSPECTED NAZI SPIES HELD

THE HAGUE, Dec. 1 (Reuter).—Two Dutch State officials are detained here in connection with suspected espionage on behalf of Germany. The wife of one of the men is also detained.

Dewey To Run For Presidency

NEW YORK, Dec. 1 (Reuter).—Mr. Thomas Dewey, District Attorney of New York, is formally announced as candidate for the Republican Presidential nomination in 1940.

Mr. Emmanuel Brook David has been reassigned from the Combatant Group to the General Group for Essential Services in the Hongkong Defence Reserve under the provisions of the Compulsory Service Ordinance, states a Government Gazette notification.

PURGE COST REDS THOUSANDS OF MEN

WASHINGTON.—Gen. Walter G. Krivitsky, who said he was in the Soviet Military Intelligence for 17 years, told the Dies Committee to-day that the 1936-37 purge in Russia resulted in the killing of 35,000 members of the Red Army Officers' Corps.

He said also under questioning that, while Earl Browder dominated the Communist Party here, one real head of the Party in the United States, as elsewhere, was Stalin, who "gives his instructions to the Party here through the representatives of Communist International." In addition, General Krivitsky told his House Committee investigating un-American activities that Josef Stalin sent from 300,000 to 400,000 persons to imprisonment or exile and "millions of the population to concentration camps."

Gen. Krivitsky, a small slight man with greying brown hair and hazel eyes, said that he broke with Stalin over the purge.

The witness testified through the aid of an interpreter. The purge, he said, reached its climax in 1936 and 1937.

"In this climactic period one could not remain in the party without taking part in the purge himself," he continued. "Stalin demanded that I take an active part in the purge. This I refused to do and I broke with Stalin."

That was in 1937, General Krivitsky said.

Born In The Ukraine

Born Samuel Ginsberg in the Russian Ukraine in 1890, he testified, his "official, legal Soviet Government name" had been Krivitsky since 1919.

Entering the military intelligence in 1920, he said that from 1921 to 1923 he worked in the Third Bureau of the Red Army General Staff.

Answering questions by Rhea Whitley, Committee counsel, about his various connections with the Soviet Government, Gen. Krivitsky said that in 1923 he was sent to Germany "to organise the German revolution and prepare the manpower for the German Red Army."

Holding various positions in the intervening years, he said he became Director of the War Industries Institute and then in 1934 returned to General Staff intelligence work. In 1935-37 he was chief of Soviet military intelligence for Western Europe, which includes Central Europe, particularly Germany.

In a long answer as to why he broke with Stalin the witness said that "during the years preceding 1936 all of us hoped that the party in the country would enter a period of greater democracy."

"Then in the decisive year 1936," he declared, "when the country was looking forward to this change Stalin ordered and purged all the elements which would have been the basis for democratisation of the country."

Extended Operations

"In 1936-37, he destroyed all these elements in the Party—among workers, in the Army, among peasants and among the intelligentsia."

"In 1937 he destroyed 35,000 members of the Officers' Corps of the Red Army."

General Krivitsky attempted to explain to the Committee how Stalin dominated the International Communist Party and used it to support his regime.

"As a formal matter, the Russian Communist Party is merely a section, whose aim is to convince other sections of the International in other countries to adopt policies identical with those of Moscow," he said.

"Until 1923, the Soviet Government hoped to bring about revolutions in the other countries of Europe and the sections of the Party were instructed to govern their course accordingly. After 1923, the Government no longer could hope for revolution and the role of the Party sections changed accordingly."

SEXTETTE AT GRIPPS

Farwell To Harvey And Dyer Sisters

HONGKONG WILL bid farewell to-night to three of the most popular entertainers this Colony has ever welcomed.

Owing to a prior engagement at the Manila Hotel in Manila, the Hongkong Hotel season of Dave Harvey and the Dyer Sisters, which has already been extended once in response to popular demands, will definitely end to-night.

The trio, which has enjoyed a remarkable vogue during their season at the Gripps, will say farewell with new numbers and old favourites. In their popular farwell performance last night, Harvey and the Dyer Sisters appeared in conjunction with three new artists who have been booked for the Christmas season and whose welcome left no doubt that they are worthy successors of the trio who are leaving this week-end.

"Noneone," who was en route to England from Australia broke out and who is now returning to her Homeland, America, is by far the smoothest and most amazing acrobatic dancer this Colony has seen for several years. Her number last night was entrancingly clever, and merited the generous applause given by a packed floor. June West and Kay introduced novelty in tap dancing and have a repertoire said to be excellent and well-balanced.

The sextette—new and old entertainers—will all appear at the Gripps to-night. The Management of the Hongkong Hotel, in notifying that there will be a gala extension to 2 a.m., advise early reservations to-day in view of the heavy bookings that have already been made.

New Ten Shilling Stamp

Blue ten shilling postage stamps of a new design, bearing the head of King George VI., are now on sale at many of the principal head post offices at Home.

They show the King's head within a conventional cartouche of decorative design. Surrounding this on either side are branches of laurel. Above the cartouche is set the Imperial Crown.

The sale of King George V. stamps of the same denomination will be continued until stocks are exhausted, but the new stamps can be obtained if specially asked for.

Messrs. Lowe, Bingham and Matthews, Chartered Accountants, have been appointed liquidators of Messrs. Becher and Co. of Hankow, in connection with the Allen Enamels (Winding UP) Ordinance, according to a Government Gazette notification.

Messrs. A. R. S. Major, W. P. Thompson and K. A. Bldmead have been appointed to be Superintendents of Police. Messrs. W. L. B. Sparrow and L. H. C. Catford have been appointed to be Divisional Superintendents of Police.

Mr. J. B. Prentiss has been appointed to be Official Receiver in Bankruptcy, Registrar of Trade Marks, Registrar of Patents and Custodian of Enemy Property.

Mr. L. R. Andrews has been appointed to act as Registrar of the Supreme Court, Registrar of Companies, Official Administrator and Official Trustee as from yesterday.

Dr. Chau Sik-nin has been appointed to be a member of the Medical Board for a further term of three years.

KNEE STIFF AS A POKER

Middle-Aged Man Who Could Hardly Walk

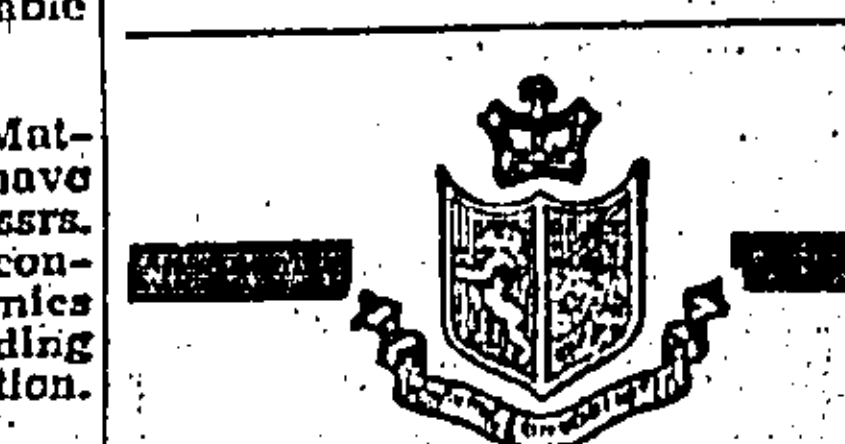

He thought he had injured his knee in some way and that it needed massage and treatment, but he got no relief. The truth was that he was suffering from uric acid in the joint. Now he tells how Kruschen Salts have made him walk as well as ever, although he is already middle-aged:— "A few years ago I developed a very sore knee joint and it stiffened up. I had treatment for about 3 months. I could hardly walk, it was so sore and painful. I also had it X-rayed but there appeared to be nothing wrong with the knee. I heard of Kruschen Salts so I got a bottle. After I had taken a portion of the bottle the stiffness left me, so I now take Kruschen every morning, and can walk 12 or 14 miles a day. I am middle-aged."

Kruschen Salts clear your blood of the mischievous uric acid which settles in your joints and muscles, causing them to swell, grow stiff and unbearably painful. And when poisonous uric acid goes, there is no doubt about these old rheumatic aches going too!

Rampaging Reds

THE power of Soviet Russia, expanding along the Baltic Sea, engulfs plucky little Finland, who has opposed the imposition of the same "strategic occupation" won from Lithuania, Latvia and Estonia.

As "Life," the excellent American newsphoto magazine, recently put it "Empires come and go, ideological regimes come to power, blazoning the arrival of a brave new world. Yet the inexorable laws of economics and of strategy operate alike to control the destinies of democrat and dictator, of czar and soviet."

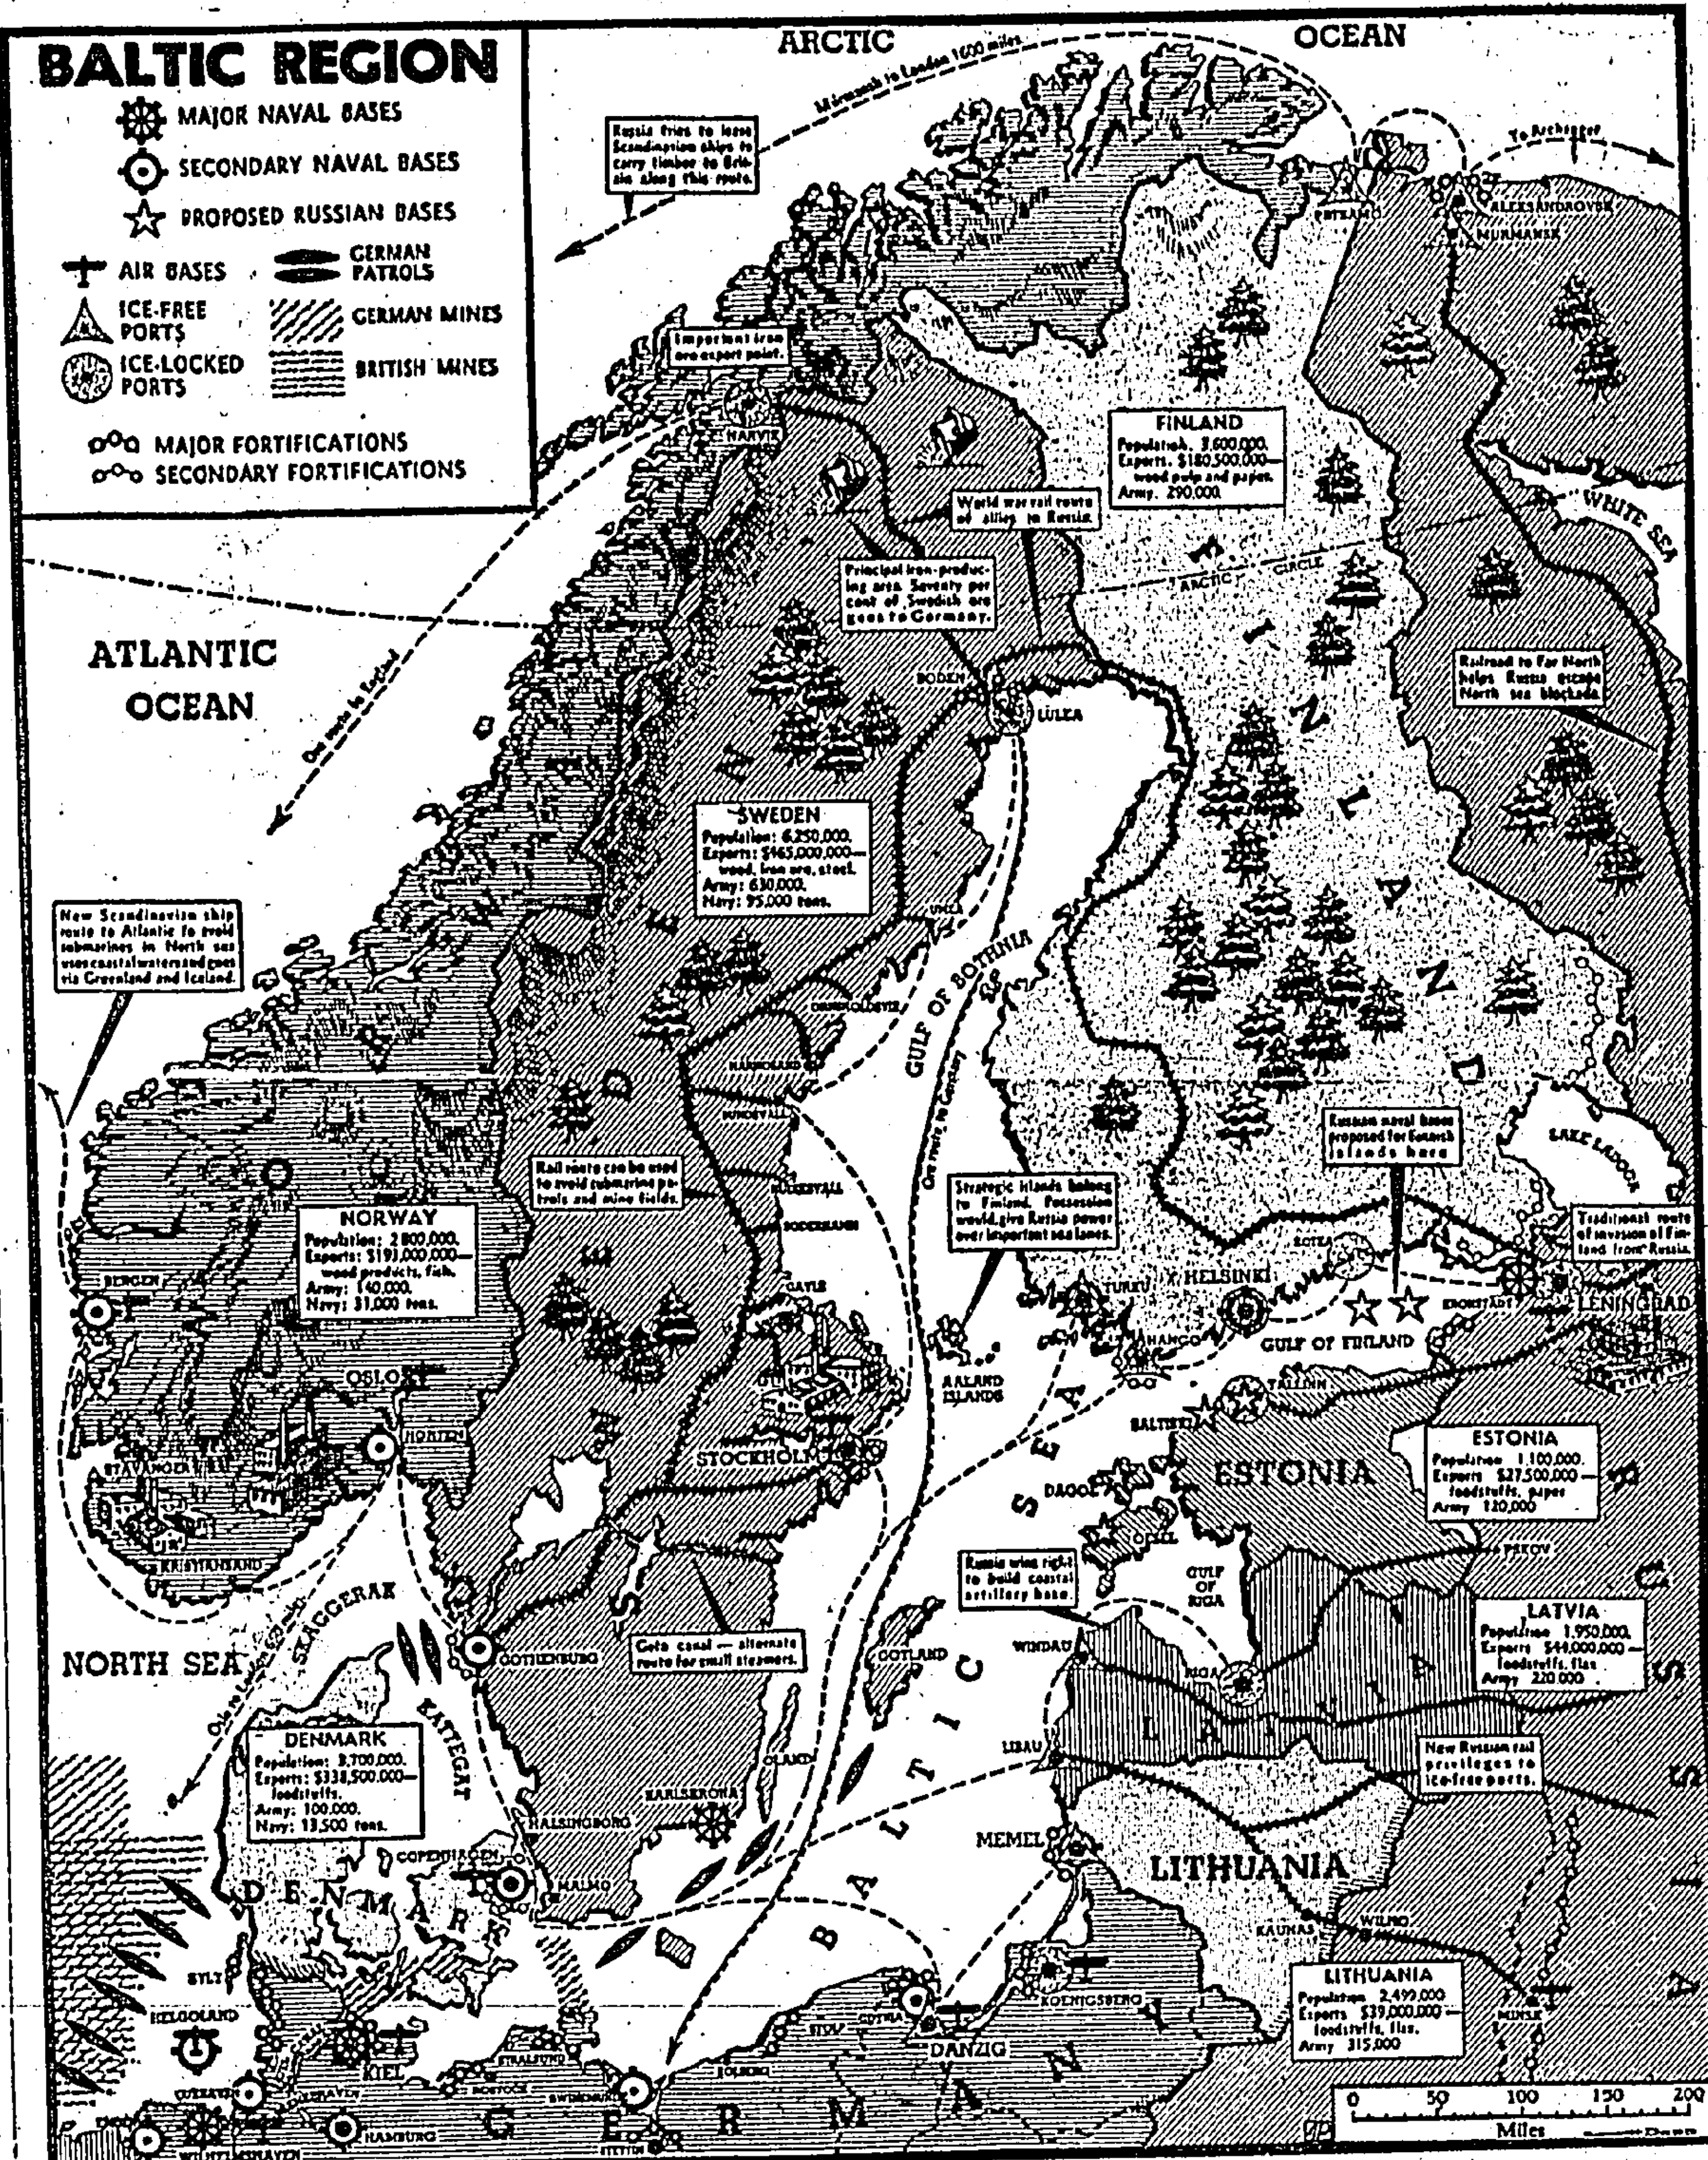

The Baltic is a good example. Russia has taken advantage of the war between Germany and the Allies to expand, without fear of opposition, to the old military positions Czarist Russia occupied.

Finland's gallant opposition, however determined, cannot hope to continue successfully against the might of the Soviet war machine, which includes what is perhaps the greatest air force in the world to-day. The Baltic, therefore, passes under the control of Russia, whose recent moves, culminating in the invasion of Finland, gives her bases which makes her position almost impregnable.

It is difficult to understand how Germany can view with equilibrium the "freezing" of the upper inland sea by Russia, who now has an all-the-year-round ice-free strip of coastline from which she can launch her fleet of submarines—the most powerful in the world, according to the latest edition of "Janes' Fighting Ships."

Against Russia's other twin martial colossi—her army and her air force, little Finland can be saved only by her terrain. Finland's lakes and vast swamps may prove impassable to Russian tanks and mechanised units. The Finnish Army totals some 300,000. Their courage needs no emphasising.

WHERE RUSSIA IS CONSOLIDATING

While most of the sea lanes and railways indicated on this map are hundreds of miles from the western front, they play a vital part in the war because over them move the products of a region whose best customers have been the present enemies, Great Britain and Germany—and because the accident of geography makes the area's shipping an easy prey of belligerent submarines. Chief products are iron ore and timber and its by-products—all highly prized by nations at war.

The militarily weak Baltic nations are wedged between the newfound friends, Germany and Russia. No sooner had

Poland been partitioned than Russia began moving west along the Baltic. It wants ice-free ports and bases controlling sea lanes. Nations that have granted its demands have come close to being Soviet protectorates.

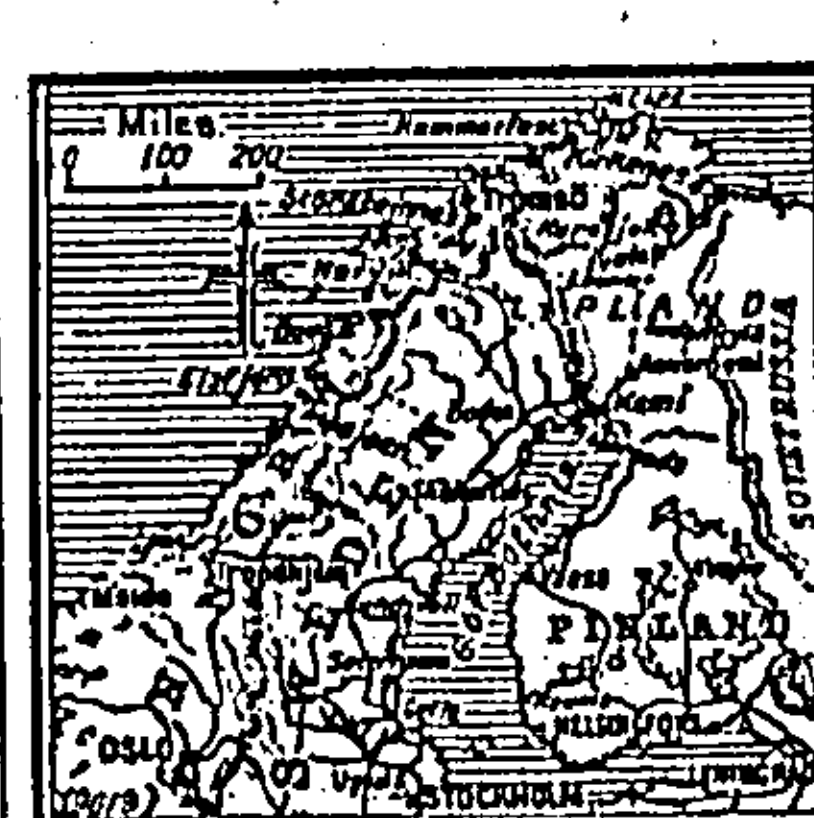

Soviet pressure was exerted first against Estonia and Latvia, which quickly capitulated; then against Lithuania, which, in return for its concessions, regained its old capital, Vilna. Next Russia tackled Finland with results that made history this week. This excellent map is from the well-known American newspaper "Christian Science Monitor."

Finland Said

"BEWARE OF SOVIET RUSSIA"

TWENTY-ONE years ago last August General Mannerheim, Commander-in-Chief of the Finnish Army, marched his White Guards into Helsinki, ended the War of Independence against the Russians and established Finnish freedom on Finnish soil for the first time for seven and a half centuries.

Ever since, Finland has grown and prospered, establishing schools in distant lake-bound forest land, given women the vote, turned the old Finnish language from the speech of peasants into an instrument of national poetry, sent her ships laden with timber and woodpulp to the ends of the earth, but always with one watchword well in mind: "Beware of Russia."

have shown what they can do with freedom, will not lightly put it to rest. Their country is thinly populated (3,667,000 in 1930), though the largest in Europe; most of it is lake and forest land with infrequent and indifferent roads; their army numbers about 22,000, their navy consists of two coastal defence ships and five submarines; they have a bare half-dozen squadrons of aeroplanes.

Though linked commercially, historically and now strategically with Sweden, the other Scandinavian State, the Finns are ethnographically a race apart, their nearest kinsmen being the Estonians.

With a telescope on a clear day you can see into Russia from the tower of the old Swedish fort at Viipuri, the key point of Finland's defences in the east.

In the west, some 50 miles off the Turku archipelago, lie the Åland Islands, astride the inlet to the Gulf of Bothnia, strategically of paramount importance in the Baltic. The islands can be reached in 15 minutes by air from the coast of Sweden, only 25 miles distant. It is therefore necessary to Sweden, as well as to Finland, that these islands should not fall into the hands of a Great Power.

In 1809 Finland, including Åland, was ceded to Russia as the result of a disastrous war. The Russians, who clearly saw the importance of the islands, built a fortress there which was bombarded by a British fleet during the Crimean War. Sweden succeeded in getting the islands demilitarised under an international convention annexed to the Peace Treaty of Paris in 1856. This, however, did not prevent the Russians from creating fortifications there during the Great War, much to the anxiety of Sweden.

When Finland proclaimed her independence in 1917 the 23,000 Ålanders expressed their desire to be reunited with Sweden, but Finland would not agree. Ultimately they remained Finnish, though with extensive autonomy, and a League convention, signed by all the Baltic countries except the Soviet Union, as well as by France, the British Empire and Italy, prohibited any military, naval

or air establishments in the islands. Finland was granted only the right, in case of danger of attack against the islands, of taking certain defensive measures to check an aggressor; until the signatory Powers could intervene. In the Czech crisis of September, 1938, Finland, alarmed at the appearance of Russian gunboats and submarines near the islands, sought approval to fortify them. A scheme was prepared for this, but nothing has yet been done.

Thus Finland, for 21 years a land of peace and culture is brought into the maelstrom once more. The tale of her history—from 1554, when Sweden, with the Pope backing, launched a first crusade to redeem the pagan Finns from their darkness, to 1809, when Russia at last secured the coveted land—is a tale of warfare.

But Finland is stronger now than she was and has many friends. Sweden (her ex-master), in England and in the United States, where Finland's reputation for financial honesty (she was the only country to pay her war debts in full) stands high.

Every Finn, man or woman, does military service, and even is liable for active service between the ages of 17 and 60. Liberty and the price that must be paid for it are well understood in Finland, and no easy capitulation may be looked for.

YOUR tie is a small, but very noticeable part of your dress. Therefore, consider the advantages of these Real English "Hand Loom" ties made from silk woven on the old Hand Looms in Spitalfields and other parts of England.

This Best quality yarn gives a firm but supple weave which enable the ties to quickly recover from "creasing." The same factor assures long wear and durability. This is important when it is remembered that a tie receives harder wear than any other article of apparel.

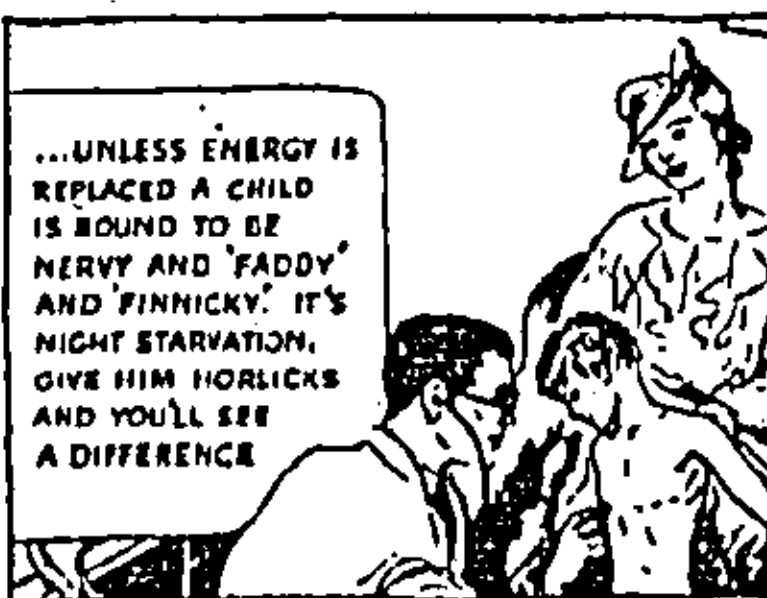

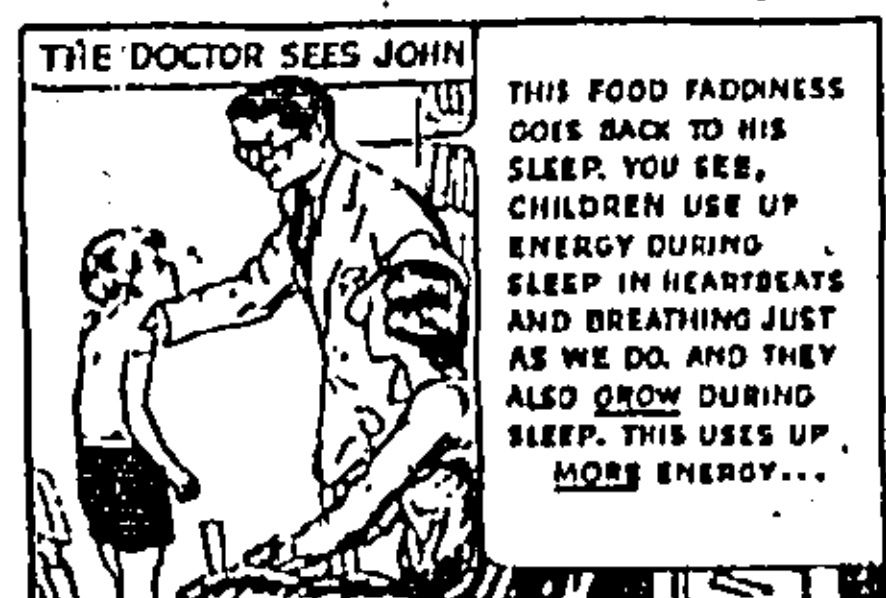

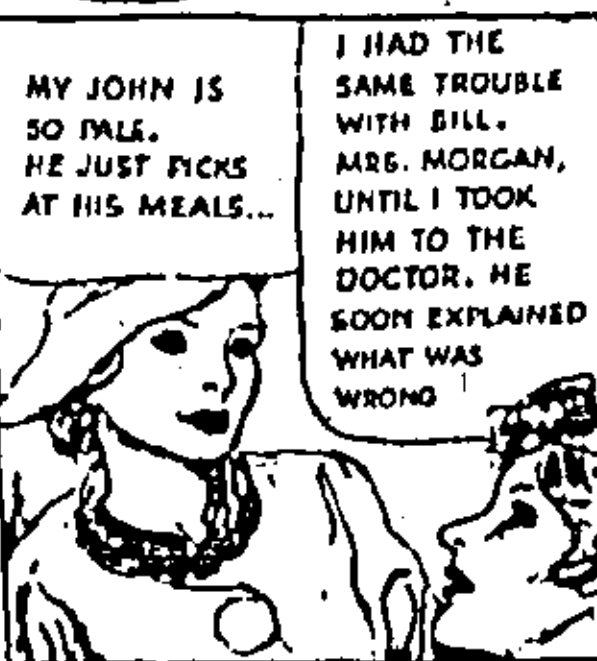

All designs are tasteful and exclusive. Such good silk allows of dry cleaning and comes up equal in appearance to new. Supplied in Black, Self Colours, Black and White, as well as in fancy colours.

OVERNIGHT NEWS PAGE

No Hasty Action By Britain

LONDON, Dec. 1 (UP).—Despite widespread public indignation over the invasion of Finland, Britain appears to be determined to sever diplomatic relations with Moscow, according to some observers. The position might be re-examined before any rupture in relations takes place.

GANDHI'S ATTITUDE

Not Anti-British Says American Journalist

"After interviewing Gandhi I gained the impression he wanted India to assist Britain all the while in this war and not ask for concessions at her," said Mrs. J. B. Williams, an American journalist on arrival by Imperial Airways plane last night from India. Mrs. Williams is a correspondent of the New York Times.

"Gandhi received me in his small mud-house and I found him very charming. He was pro-British rather than anti-British. Despite his years he appeared full of vitality and in good health. His voice was cultured and his English excellent," she added. Mrs. Williams spoke enthusiastically of the work of the Moral Re-Armament was doing in drawing the peoples of India together.

"I think that the principles of Moral Re-Armament form a basis upon which the Indians and British will ultimately solve their problems," she said.

At one M.R.A. meeting at Peshawar Mrs. Williams found the Brigadier of the British troops on the North West Frontier, an Indian leader of the Congress forward block, and an English Indian Civil Service man doing splendid work in harmony. "Formerly, the Brigadier held the old, aristocratic views and confessed that he had never tried to get to know the Indians until he took an interest in the M.R. movement in England."

The Indian told me once he always used to walk on the opposite side of the road if he saw an Englishman approaching," she pointed out.

DINNER TO MR. CAINE

An official dinner is being given by His Excellency the Governor at Government House at 8.15 p.m. on Monday in honour of the Hon. Mr. S. Caine, J.P. who is shortly leaving the Colony on being recalled for important duties in the Economic Department of the Foreign Office. Mr. Caine will leave Government House on Tuesday and will set out for London by air on Wednesday.

America And Japan

APPEALS TO TOKYO TO ABANDON RUSSIA

New York, Nov. 30. In a signed article published by the New York Herald Tribune, Walter Lippman declares that if Japan abandons the idea of co-operating with the Soviet Union and launches positive demarches towards America the United States will co-operate with Japan in the construction of a new order in East Asia.

While America does not want to pull Christmas out of the fire for Britain's sake, if Japan aligns herself with Soviet Russia in an attempt to expand her designs for the Pacific, America will take all measures in her power to secure her position in the Pacific, but by changing sides towards America, Japan will find a more desirable and safer partner.

It is true that there are some Americans who are opposed to the Japanese-designed order, but the greater part of the American people will agree to a peace plan in China if it provides for a restoration of China's sovereignty parallel with recognition of Japan's special position.

If again Japan launches negotiations with America, the latter is aware of the necessity of dealing with the colonial problems in the Pacific by new methods. Americans desire to retreat quickly without losing "face" from the Philippines and if the security of the Commonwealth forms part of the general security in that area of the Pacific, Americans can safely promote independence, Mr. Lippman adds.—Domel.

Pittman Inconsistent

Tokyo, Dec. 1. A Foreign Office spokesman said Mr. Suma charged Senator Pittman with "inconsistency."

He criticised Senator Pittman's statement that the United States would accept the Anglo-French blockade of German exports without protest, which Mr. Suma asserted was tantamount to abrogation of the principle of freedom of the seas. The United States had zealously advocated the principle in the world war and it was difficult to under-

NEW FINNISH CABINET FORMED AS BOMBING CONTINUES

President Roosevelt Appeals to Soviet

The Finnish Government has issued a declaration in which it refutes the suggestion that it intends to surrender. It states the Cabinet is being reformed to make it more truly representative of the Government and include members of parties previously excluded.

Thousands of civilian refugees attempting to flee into Norway have been prevented from doing so by Russian planes patrolling the border roads and Russian ships blockading Finland's only ice-free northern seaport.

Italy criticises Russia for the tragic developments of the Soviet-Finnish tension, but Germany is impressed. Sweden and Norway are alarmed.

Copenhagen, Dec. 1.

M. Vaino Alfred Tanner, the Finnish industrialist, is forming a new Finnish government to-day with the former Premier, M. Toivo Kivimäki, as Foreign Minister. The Government will probably open negotiations with the U.S.S.R. during the day, after a truce has been arranged.—Reuter.

Resignations not Confirmed

London, Dec. 1. A telephone message Helsinki via Amsterdam just received says that the resignations of Dr. Cajander and M. Tanner reported abroad are not confirmed here, but are expected shortly.—Reuter.

Prepared to Resign

London, Dec. 1. Messages from Helsinki are much delayed. The latest, filed 47 minutes after midnight, states it is reliably reported that the Finnish Government is informing the Soviet that it is prepared to resign.—Reuter.

New Government Formed

Berlin, Dec. 1. A new Finnish Government has been formed, states the official news agency, quoting an Oslo report. The new Government is proposing an immediate armistice, with a view to peace negotiations.—Reuter.

All Party Government

Helsinki, Dec. 1. It is officially stated from Helsinki that one of the factors behind the Government resignation is the demand for representation of all Parliamentary Parties in the Cabinet.

The present Government is composed of Conservatives, the National People's Party and IKL, known for pro-Nazi and Fascist sympathies. The new Cabinet has not yet been formed, but it is expected at any moment.—United Press.

Kremlin Uninformed

Moscow, Dec. 1. Political quarters believe that in view of the resignation of the Finnish Government, the Kremlin is more likely to consent to an armistice and resumption of negotiations.

Appeal to Both Sides

Washington, Dec. 1. President Roosevelt has asked Russia and Finland to pledge not to resort to the inhuman barbarism of bombing civilians from the air.—Reuter.

Cautious Press Comment

New York, Dec. 1. The Herald-Tribune declares it is doubtful if the Totalitarians could have done anything better calculated to clarify their philosophy and policies than the invasion of Finland.

The paper adds that the forces of evil have been unleashed in the world by the Russo-German alliance in the form of a threat, not only to democratic Europe, but the whole civilised world.

The New York Times says that the bombs that rained on the Finnish workers and peasants finally exploded a mighty illusion.—Reuter Bulletin.

Bonds And Currency Down

New York, Dec. 1. The Soviet invasion has caused a virtual collapse of the Finnish dollar bonds and sharp weakness in other Scandinavian issues.

Foreign Exchange Traders

have suspended all dealings in Finnish currency, although no real selling pressure is reported.—United Press.

"Finnish Aggression"

London, Dec. 1. The Moscow radio this morning says that the Soviet people have learned with anger and indignation the treacherous attack of Finnish soldiers on Soviet troops.

The Soviet people acclaim the Red Army and Red Fleet, which have moved to defend the Finns and cover themselves with new glory.—United Press.

Appeal To Finnish Reds

The Pranda publishes an appeal to the Finnish Communist Party urging the soldiers to lay down their arms and welcome the Red Army, organise popular Government, carry out general nationalisation of banks and industry, distribute estates, and make peace with the Soviet Union.

The manifesto is reported to have been broadcast illegally. Its publication indicates the kind of Finnish Government the Kremlin would like to see after the resignation of the present Government, through pressure.—United Press.

SOLDIERS' COMFORTS

Hongkong B.W.O.F. Sends Another Parcel

The knitting section of the British War Organisation Fund despatched to England last week 335 mufflers, 50 sweaters, four pairs of mittens, and 540 pairs of socks. These were packed by the Frikoo Sugar Refinery in cases provided by them and were shipped by courtesy of the Blue Funnel Line, some cases being sent to the Navy and some directly to the men at the front.

The wool for these comforts was bought by private subscription; the largest donation of \$180 being given by the Ladies of the Frikoo Club Working Party.

As a result of the showing of the "Nurse Edith Cavell" film at the Queen's and Alhambra Theatres, on November 10, the satisfactory sum of \$2,120.44 was realised for the Fund.

On December 10, two hockey matches will be played at King's Park, a ladies' match at 2.30 p.m., Island v. Mainland, and at 4 p.m., the Combined Services v. Civilian. The Frikoo Club will play during the afternoon, the proceeds of the game money will be given to the British War Organisation Fund.

The appeal for contributions to the above Fund has for its object the providing of service and comfort to British fighting men and civilians who may be the victims of the war between the Allies and Germany.

Part of the money raised in the Colony will be used to finance work undertaken locally in the purchase and making of hospital necessities to be shipped to London.

Will Be Provided By Pigeons

CARRIER-PIGEONS—"the extra wings of the R.A.F."—are now being employed by Britain's airmen at certain home stations. Released from patrolling aircraft, the pigeons lose no time in returning to their depots with important messages.

Twenty thousand pigeons have been enlisted for carrier service with the British forces under the National Pigeon Service scheme, but none has yet gone to France. The French have already sent 100,000 pigeons to the Maginot Line.

The British Navy may also be provided with pigeons for messenger service soon.

Mass transport of pigeons to France is likely to take place in the spring, young birds being sent out and placed in mobile lofts equipped with wireless apparatus from which they will accustom themselves to their surroundings and to gunfire.

These young pigeons will be sent from England soon after they are able to fly. They will be trained to fly back to various strategic bases in France at which they will be kept until they are sent to the forces.

They Never Forget. However long a bird is kept away from its home base, it will not forget the direction home and will return at 40 or more miles an hour with a message clipped to leg or tail feathers.

Old birds will not be sent abroad because they would, when released, return to their home lofts in England.

At least 100,000 pigeons did invaluable work with the British Forces on land, sea and air during the last war. It is estimated that 99 per cent. of the birds got their messages through, although many died from wounds after delivering them.

The lives of many airmen whose planes had come down in the sea were saved by the speed and unerring instinct of pigeons during 1914-18.

CHAMBER MUSIC CLUB

First Concert Arranged For December 15

The first concert of the season by the Hongkong Chamber Music Club will be held at Government House at 8.30 p.m., on December 15.

The programme will consist of two trios: Mendelssohn's Trio in D Minor, Op. 52, and Grieg's Trio in D Minor, Op. 32, played by N. Tonoff (violin), E. Fellegatti (cello), and H. Ore (piano), and three songs "O del mio Amato Ben" (S. Donaudy), Arla di Dori, from "La Gioconda" (Toscanini), and "The Shepherd's Song" (Edward Elgar) by Miss Elvise Yuen (soprano), accompanied at the piano by Very Rev. Father A. Riganiti.

It is proposed to hold four concerts during the season. The desirous of joining the Club should send subscriptions (\$5) to the Secretary, C/o The University.

New Age Group Called Up

LONDON, Dec. 1 (Reuter Special).—Men up to the age of 23 are now to be called up for military service. A Royal Proclamation makes liable for service all male British subjects who by to-day have reached the age of 20 but not that of 23. Date for registration is December 9. It is estimated that 250,000 men will be involved. It is not expected that the new age group will be called up for a month after registration, and at least not before the New Year.

Differences Of Play As Illustrated In S. China-Kowloon Game

(By "Rex")

BY MANY PEOPLE, there is nothing received with so much reluctance as advice. It is so often looked upon as an affront to one's understanding, and the instruction taken as a censure, and, for these reasons, it is quite difficult making advice agreeable.

The well-known fable of Aesop's—the sons who though able to break sticks singly failed to break them in a bundle—gave us the phrase, "Unity is strength." It is thus with football, or, for that matter, with any team game. Success invariably attends the more composite side.

A few brief comments on last Saturday's game between South China "A", whom everyone expected to be extended, and Kowloon would, in this respect, be an excellent illustration.

Despite the various changes in the South China team—Lee Wai-tung, Lau Tui-man and Lau Ming-choi being notable absentees—there is no gainsaying the fact that the South China team, as a team, was head and shoulders above the Kowloon. Williamson, who was the only two of the latter team who impressed, but individuals cannot successfully pit themselves against a combination.

Take, for instance, the scoring of the first goal. The Chinese forwards and the Kowloon defence were almost in lines. (Williamson for Fung; Maxwell and Eastman for Lau and Tam; Ulrich and Everest for Ip and Lai). Fung received from his right half to fall back drawing Williamson and the studied move of the Chinese, which was a deliberate attempt to get one of their men unmarked. The result was that Lai cut in behind Williamson, who had no chance to stop Fung's pass, and on Williamson turning round the ball was returned to Fung and Smith was beaten before the defence awoke to the danger.

CHARACTERISTIC PLAY

A Chinese play is that they almost always have, or work to have, a man unmarked to pass the ball to when challenged. With the exception of Lee Wai-tung, there is hardly a Chinese forward who will attempt to beat his man with the ball. They invariably pass to one of the other forwards who is unmarked, or to one of the halves.

The Kowloon players command considerable respect in many quarters—as potential—challengers—for honours in the League and Cup competitions, but they will not travel far as the team they are at the moment.

WORK OF THE HALVES

THE best form of defence is attack, and in this the halves play a most prominent part. The value of the "third back" play in coping with the Chinese has been mentioned in these columns before, and is a comparatively recent innovation. Its full value to a team, however, has not yet been exploited. This is a problem for the centre-half.

The job of the wing halves is to be up with the attack, and down with the defence. An understanding with

Entries To Women's Tennis Tournaments Close To-day

Indoor Bowling

Record Scores For November

The following records for Ten Pins and Duck Pins for November were achieved by bowlers at the Hongkong Bowling Alleys:

Ten Pins.—(Women): Mrs. P. Beresford, 181; (Men): J. T. Sheehan, 269.
Duck Pins.—(Women): Mrs. J. S. Landolt, 122; (Men): Sapper J. R. Fawcett, 157.

The backs provides for the marking of the opposing forwards. I do not intend going into the pros and cons of the "W" formation among the forwards, but it has been and is being used to good effect. With the wingers out and in advance, the inside trio form a triangle with the two insides working similarly to the halves, and have the centre-forward as the spearhead.

CLOSE MARKING

ANOTHER factor which seems to have been neglected is the vital necessity of close marking. With marksmen as can be found in the Chinese teams, only unrelaxed vigilance of the defenders will prevent goals being scored.

These are a few of the more prominent errors which are to be noticed in Hongkong. The services of a coach or trainer are worth consideration, for a great deal can be learned from sitting on the side-line—often, in fact, much more than could be observed by the players themselves.

An attractive programme of two hockey matches between Island women and Mainland women, and Combined Services against Rest of the Civilians, has been arranged for December 10 on the Club ground.

The ground will be entirely enclosed and the proceeds after deducting expenses, will be donated to the British War Organisation Fund.

From 2 p.m. until 2.30 p.m. the Band and Drums of the Kumaon Rifles will render selections. At 2.30 p.m. the Island women will meet the Mainland women in what promises to be an exciting match. On paper the two sides are fairly evenly matched and practically all teams are represented.

At 4 p.m. the Combined Services side will meet the Rest of the Civilians in what might well be termed an unofficial Interpart trial as the cream of talent in the Colony will be on view.

Charges for admission will be \$1 for seating accommodation and 50 cents for standing room.

Rugby Tournament

Changes In Club XV To Meet Army To-day

(By "Fly-half")

THE FIRST MATCH of the Triangular rugby Tournament will take place this afternoon when the Club meet the Army. For the first time in many years in this tournament, the sides are fairly evenly matched.

Injury to players affects the Army more than the Club. The former, this afternoon, will be without Douglas, Richards and Skipworth. These men fill positions which the Army can ill afford to have weakened. It is also understood that the hooker, Hewitt will be unable to turn out, his position to be taken by Sutherland.

Club have only Taylor on the injured list, and except for Cessford, may be said to be holding their first XV. Henderson has the makings of a good full-back, with a strong kick in either foot, safe hands and a safe tackle. The Stewart-Hutchinson wing is proving to be the best combination in the Colony. Charter, who will take Cessford's place of stand-off, is settling down nicely, and can best serve his side this afternoon by passing the ball out to the three-quarters in plenty of time to allow them room in which to gather speed before the opposites come upon them.

Army will have to dominate the forward game if victory is to be theirs. They have the material, provided it is kept at it, and they need have little fear.

The Club ought have plenty of go, but will find their task thorny because of their inferior weight.

In the first game the Navy "A" should have little difficulty in overwhelming the Club "A".

The teams are:
Army XV—Scot, Long, (R.A.O.C.); Fowler, March, (10th H.R.A.), Lieut Skipworth (10th H.R.A.), L/Cpl. White, (R.E.), L/Cpl. Richards, (10th H.R.A.), L/Cpl. L. (R. Secs.), Lieut. Hook, (10th H.R.A.), Lieut. Pinkerton, (A. Secs.), Lieut. Hewitt, (Mk.), Lt. Berry, (Mk.), R. J. L. Whitehead, (10th A.A.R.A.), Capt. Duke, (R. Secs.), Lieut. Riddale, (Royal Norfolk Regt.).

Reserve—Scot, Page, (10th A.A.R.A.), L/Cpl. White, (R.E.), L/Cpl. Smith, (Scotish Horse), Club XV—R. Henderson (22), D. H. Stewart (2), J. Hutchinson (11), H. D. Bidwell (13), D. I. SHIP PIRATED

B. & S. Wulin Sends Request For Aid

Shanghai, Dec. 1.

After several months of inactivity, river pirates to-day staged an attack on the Butterfield and Swire steamer Wulin, just as the ship had reached the Yangtze delta en route to Shanghai.

Details are not available at present, but it is learned that shortly after the appearance of the pirates a radio message was sent by the Wulin, requesting a British gunboat dashing to the vessel's aid.

Several pirates are said to have been seized by the Wulin's crew, the remainder escaping before the arrival of the gunboat.

It is also said that several Russian guards on the Wulin were wounded.

—Reuter.

Number of Casualties

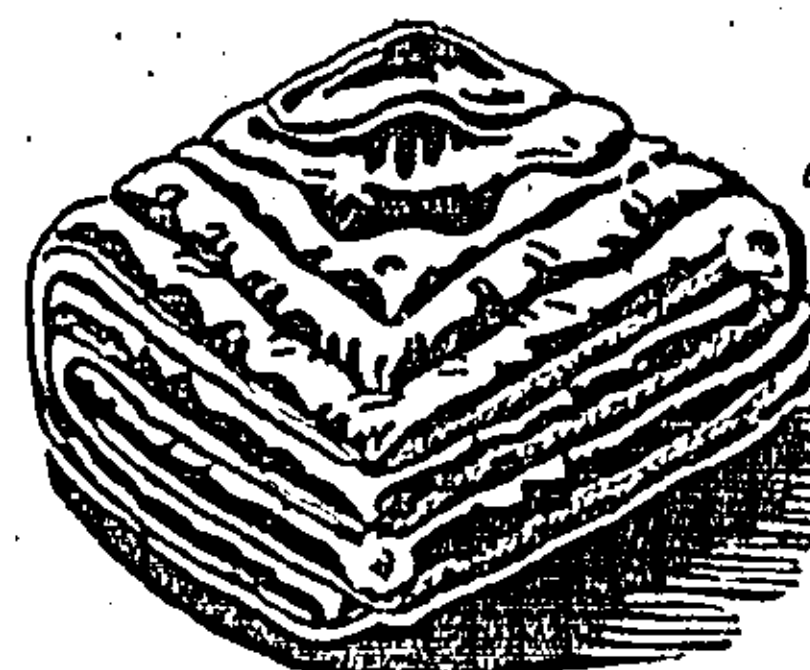

Shanghai, Dec. 1.

When pirates attacked the Wulin they had a gun battle with the Russian guards, in which one pirate was killed and one seriously wounded.

A Chinese member of the crew also sustained wounds and a Russian guard was seriously wounded.

A British gunboat rushed to the assistance of the vessel and captured several pirates. The remainder escaped. —United Press.

Beauty Tips

QUESTION: "My hair is naturally curly, but dry as can be. I brush it regularly, but this doesn't seem to bring out any oil. I have been using a wave set, but this seems to make my hair drier. Please tell me what to use on it, how often I should wash it, and what kind of soap to use.—E. B."

Continue the brushing. Give yourself a hot-oil shampoo every two weeks and use a wave set of the cream variety. These will all help to restore the elasticity of your hair and make it soft and shining. Bril-lantine or a special protective oil, sprayed lightly over the hair before you go out into the sun, will help prevent further drying. Use the mildest kind of soap, such as melted castile, for fortnightly shampoos.

St. Andrew's Day

Unusual Celebration
Very Successful

"We hope before the dawn of another St. Andrew's Day, the forces of evil and aggression will be destroyed forever and we shall again be living in a sane world," said the Chieftain of St. Andrew's Society, Dr. G. D. R. Black, in his address at the Society's Scottish Concert held in a packed King's Theatre last night.

"We regret we are unable to receive you in a manner more in accordance with the traditions of the Society, but we are fully assured the decision of the Society—that a ball under the present conditions is unthinkable—has your warmest approval."

"We felt, however, even under the existing circumstances, we could not allow our Patron Saint's Day to pass entirely unobserved and decided to hold a concert which would enable us to contribute to war funds and also to entertain our friends," said the Chieftain.

Most popular items on the programme were the fine dances by members of the Hongkong Reel Club, who performed the Highland Fling and Argyle Broadsword. The latter dance was rendered exceptionally well by Mrs. Prophet, Mrs. Way, Miss Henderson and Miss Digby. The band of the 2nd Battalion, The Royal Scots, rendered "Reminiscences of Scotland," "Songs of the Hebrides" and "The Thistle." Solos sung included "Robin Adair" and "Annie Laurie" by Doris Blair, "Spinning Wheel" and "Ye Banks and Braes" by Ella Logan, and "Turn

Dear Kiddies,

Last week's cross-word competition was a little too hard for most of you, I think. Very few entries were received.

The prize-winners this week are: John Chau (aged 11), 68, Nga Tsin Wai Road, 2nd Floor.

Ye to Me" and "Duncan Gray" by Jean Greig.

A. McKay recited "Tam O'Shanter," and bagpipe selections were played by Pipe Major Mackie and H. C. Wilson.

The programme concluded with community singing of Scottish songs, and later members of the Society and their guests adjourned to the Roof Garden of the Hongkong Hotel for refreshments.

Among those present at the concert, which was in aid of the British War Organisation Fund, and who attended the private dinner given by the Chieftain and Mrs. Black in the Hongkong Hotel last night were His Excellency the Governor and Lady Northcote, Major-General and Mrs. A. E. Grissett, Sir Atholl and Lady MacGregor, the Hon. Mr. and Mrs. A. L. Shields, Lieut.-Commander J. C. M. Greenham, Group Captain Brown, Mr. and Mrs. A. S. MacKiehan and Miss MacKiehan, Mr. and Mrs. E. M. Bryden, Mr. J. Moodie, Capt. S. H. Batty-Smith, Lt. Col. and Mrs. D. J. McDougall, Capt. St. John, Mr. J. K. Bousfield.

David G. Moulding (aged 10), 9, Humphreys Buildings.

L. Jidkoff (aged 7), 297, Prince Edward Road, Kowloon.

Coupons have been sent to John, David and L. Jidkoff which I want them to bring to the "Hongkong Telegraph" offices in Wyndham Street. The coupons will then be exchanged for money prizes.

Specially commended for excellent work are the following: Paul Vessoum, Joan Gordon, Hazel Cutter, Roberto Quan, Jessie John, Antonia Meija, John Grey, George Saunders, Louis Young.

This week, kiddies, we are having an interesting word-making competition. I am sure many of you must have been struck by the variety of things a soldier has to carry, and here we are asking you to name six of the articles in his kit. Each name is illustrated in picture form above.

If you can solve them, write your answers in a neat numbered list. Fill in the name, age and address coupon and send your entries to Uncle Eddie, c/o "Hongkong Telegraph," Wyndham Street. Awards will be given for the correct and neatest work according to age.

The competition closes at 2 p.m. on Wednesday.

HE SAID...

"It's too bad. Someone should tell her. She has everything—charm, breeding, poise. But those lips! They mask her natural beauty and give her a coarse, painted look which spoils her whole appearance. No wonder she is unpopular..."

SHE DID...

What any intelligent woman who takes pride in her beauty should do. Stopped painting and used Tangee. Now, popular everywhere (no more whispers behind her back) she knows that Tangee brings natural loveliness and popularity.

What makes Tangee so different, you'll ask? Why does it end that painted look? Because Tangee isn't paint—can't paint. Instead it changes color from orange in the stick to a youthful blush rose on your lips. And its cream base keeps lips soft and appealing.

On occasion, you may prefer a more vivid color, then use Tangee Theatrical.

Use Tangee Rouge and Face Powder, too, for perfect color harmony. Ask for Tangee beauty aids today—sold in all good stores.

A Look Through The "Telegraph"

50 YEARS AGO

Nov. 20, 1889.
To preserve uniformity in the Scots
dances at the St. Andrew's Ball to-
morrow evening, the Dance Committee
recommend that the Reel be danced as
follows:—
(1) Strathpey (ladies passing each
other left shoulder to left shoulder).
(2) At change of music, once right
round and set to partners for Reel
of Tulloch.
The Scotch reels to be danced as
follows:—
First eight bars, steps.
Second eight bars, round (same step
as in first eight bars).

A heathen who used to work for the
Telephone Company was caught on the
roof of a shop in Bonham Strand, yester-
day, rolling up a few lengths of the
copper wire. He said he was looking
for his kite. Mr. Robinson evidently
sympathized with these business men
who howl vainly into the wire-less
talking box, and, after telling his
fellow who his private opinion of him
was, committed him for six months.

25 YEARS AGO

Nov. 20, 1914.
A Paris communique states: The
artillery was everywhere slacker yesterday.
The enemy was caught on the
roof of a shop in Bonham Strand, yester-
day, rolling up a few lengths of the
copper wire. He said he was looking
for his kite. Mr. Robinson evidently
sympathized with these business men
who howl vainly into the wire-less
talking box, and, after telling his
fellow who his private opinion of him
was, committed him for six months.

The House of Commons, in a power-
ful and stimulating speech, reviewed
the naval situation, and said it was
impossible for the navy to be so weak
as it was at present. The speaker
said that the navy was the only
arm of the service which had not
been weakened by the war. He said
that the navy was the only arm of
the service which had not been
weakened by the war. He said that
the navy was the only arm of the
service which had not been weakened
by the war. He said that the navy
was the only arm of the service which
had not been weakened by the war.

10 YEARS AGO

Nov. 20, 1929.
After long and laborious negotiations
a provisional agreement between Turkey
and Soviet Russia has been reached.
The agreement provides for a period
of six months. Turkish exports to
Russia will be resumed in December.
It is assumed that the Russian
Turkish co-operation which has been
evident of late will now disappear.

5 YEARS AGO

Nov. 20, 1934.
After Mr. Winston Churchill's vivid
description of Germany's preparation
and Britain's unpreparedness, Mr. Stan-
ley Baldwin gave a climax to the debate
on Imperial Defence in the House of
Commons today by making an implicit
appeal to Germany to return to the
League of Nations and to the Disarma-
ment Conference.

"The Government is determined under
no conditions to accept a position of
inferiority in relation to any force
Germany may raise in the future," he
declared. The Lord President of the Coun-
cil warmly.
"As long as Germany sits by herself,
having no direct communication with
other states in Europe, more and more
will suspicion grow, and, maybe, more
and more Germany's troubles will
grow," Mr. Baldwin warned.
Mr. Baldwin said that the present
international nervousness could be
blamed on Germany.
"None of it would have occurred," he
said, "unless Germany had left the
League of Nations and unless her ac-
tions and her armaments had been
shrouded in mystery."
For the first time, Mr. Baldwin re-
vealed that Britain's official estimate of
Germany's "army" is now 2,000,000
"probably between 600 and 1,000 air-
craft."
Insisting that there was no cause for
alarm or panic, Mr. Baldwin announced

STOCK MARKET REPORT

Hongkong Stock Exchange Weekly
Report issued yesterday says:

Yesterday's summary might per-
haps have been held over for to-day's
weekly summary. The position re-
mains the same. "Board" enquiries
continue to show that there is intent
interest in the market, but which
holders are not disposed to encourage
at to-day's levels. Indications are
not wanting that Local Utilities, and
other Local Companies, will be able
to show good results for the current
year's working. These will make the
local tax gatherers' mouths water, but
the episode of the bearer of the
pitcher, who journeyed once too often
to the well, should be borne in mind.
The fact is, Capital fears this episode
may not be sufficiently borne in mind,
and in consequence remains in the
unhappy state mentioned two weeks
ago. Shall it take a chance, spread-
ing its interests here and elsewhere,
or bent it altogether?

BRIDGE PROBLEM IS SOLVED

An ideal novelty Christmas present
for contract bridge players has been
turned out by Ye Olde Printers in
the form of a decorative box con-
taining two packs of playing cards
and scorers in two colours, with the
recipients monogram printed on each
card.
The scoring pads are printed in the
same colour as the playing cards, thus
obviating a time-old problem in
bridge—remembering which pair has
the blue cards and which the red.
It is a novelty gift which should
prove highly popular with Hongkong
bridge players.

that the British Air Ministry com-
pleted next year the ordering of be-
tween 80 and 90 per cent. more aircraft
than in 1934.

The Czechoslovakian Legation in
Berlin was the scene of a demonstration
by German students to-day, which was
a repercussion of the trouble at Prague
during the week-end when German and
Czech students came to blows over the
refusal of the Germans to surrender
their old insignia to that of a more
newly-founded university which they
were attending.

China's integrity must be respected,
both in spirit and in letter, declared
Mr. Lloyd George, former Prime Min-
ister and leader of the Liberal Party,
when he made his first speech for over
a year in the House of Commons to-
day.
He said Britain must realize Japan's
difficulty in discovering new markets
for her growing industries, but urged
co-operation instead of competition.
Japan, he said, was entitled to equal
but not preferential treatment in the
Far East.
"The China Sea may not be closed,"
he declared.

LESSON SERMON

First Church of Christ
Scientist, Hong Kong

The subject of the Lesson Sermon in all
Christian Science Churches to-morrow,
December 3, will be "God the Only Cause
and Creator."
The Lesson Text will be—"Let all the
earth fear the Lord: let all the in-
habitants of the world stand in awe of
him. For he spake, and it was done; he
commanded, and it stood fast." (Ps. 33:
8, 9).
The following citations will also be
read from the Bible:—"The Lord
hath brought forth our righteousness:
come, and let us declare in Zion the
work of the Lord our God. He hath made
the earth by his power; he hath es-
tablished the world by his wisdom, and
hath stretched out the heaven by his
understanding." (Jer. 51: 16, 25).
The following citations will also be
read from the Christian Science Text-
book, "Science and Health with Key to
the Scriptures" by Mary Baker Eddy:—"The
creative Principle—Life, Truth, and
Love—is God. The universe reflects God.
There is but one creator and one crea-
tion. If God, the All-in-all, be the
creator of the spiritual universe, including
man, then everything entitled to a classifi-
cation as truth, or Science, must be
comprised in a knowledge or understand-
ing of God, for there can be nothing be-
yond illimitable divinity." (Pages 502, 127).

JAPAN'S ARMY

Reshuffle Of Commands Announced

Tokyo, Dec. 1.
Far-reaching personnel changes in the Army both at home and abroad are announced by the War Office today.

Lieut.-General Jitsuo Ushijima has been appointed Commander-in-Chief of the Formosan Garrison, while Lieut.-General Shiro Inaba has been named Commander-in-Chief of the East Japan Defence Headquarters.

Lieut.-General Seizai Honda has been appointed Vice-Chief-of-Staff of the Japanese Expeditionary Forces to China and Lieut.-General Sueichiro Higuchi has been appointed Commander of the Ninth Division.

Other important appointments include Lieut.-General Ichiro Banai as the chief of the Army Infantry School; Major-General Renya Mudaguchi as the chief of the preparatory school of the Military Academy; Major-General Otsuburo Yano as the Commander of the Chinkai Fortification; Lt.-Col. Shuichi Tatumura as the chief of the Army Press Bureau of the Imperial Headquarters.

Newly-appointed Military Attaches abroad include Major-General Saburo Isoda at Washington, Col. Seifuku Okamoto at Berlin, Flight Colonel Shigeo Fujizuka at Bucharest, Col. Eiichi Tatumi at London, and Col. Seimei Shimizu at Rome.

Naval Appointments

In connection with the opening of the Maizuru Naval Station and a new naval air corps at Iwakuni in Yamaguchi Prefecture, the Navy Office today has announced important personnel changes in the Navy.

Vice-Admiral Goro Hara has been appointed Commander of the new Naval Station at Maizuru and Rear-Admiral Kiyohide Shima Chief-of-Staff at the Station.

Rear-Admiral Kokichi Terada has been appointed commandant of the 12th Combined Air Corps. Among other important appointments are Rear-Admiral Seigo Yamagata, Chief of General Affairs at the Naval Air Force Headquarters; Captain Shiei Sugimoto, commandant of the newly-inaugurated naval air corps at Iwakuni; Captain Keikichi Araki, commandant of the Yatabe Naval Air Corps; Captain Shinnosuke Muneyuki, commandant of the Hyakurikara Naval Air Corps.

A new Naval Flying Corps was opened at Iwakuni in Yamaguchi Prefecture, in the western part of Japan Proper this morning—Domet.

OUR GUIDE TO THE CINEMAS

"Stanley and Livingstone" (King's): Darryl F. Zanuck has here a great real life adventure and he's given it all he's got. The result is a picture of broad proportions, honest emotions, and inspiration, finely acted and photographed. Story carries Stanley through the journey to find Livingstone, back to London where he nearly fails to convince the Geographical Society of his claims, and ends with his return to further exploration. Splendid work done by Spencer Tracy, Sir Cedric Hardwicke and Walter Brennan.

"Broadway Serenade" (Queen's and Alhambra): This film, which leads up to a crashing, tremendous, expensive and altogether bewildering musical climax, gives us Jeanette MacDonald and Lew Ayres as a married "team" of entertainers who part through the young man's sensitiveness. While she takes her broken heart to the heights of popularity he goes to the dogs until a faithful old friend comes to the rescue and makes him a celebrity too.

"Winter Carnival" (Oriental): A college film starring Ann Sheridan and Richard Carlson.

"Dawn Patrol" (Majestic): A war film singing the praises of the R.A.F. Contains remarkable scenes of individual combat in the air and culminates in an appalling scene of bombing of factories and railways behind the German lines. Detailed and realistic study of characters presented by Errol Flynn, Basil Rathbone and David Niven.

WHY SUFFER FROM HEADACHES SLEEPLESSNESS IRRITABILITY

When **'ASPRO'**
WILL PROTECT YOU

THESE are nervous complaints that quickly yield to the soothing influence of 'ASPRO'. So many thousands of people have proved it—if you have not proved it for yourself, you will generally find that your friends can tell you that 'ASPRO' definitely does banish headaches in a few minutes—brings sweet sleep to the sleepless and soothes away your irritability quickly and effectively. So why suffer? 'ASPRO' does its work without harming the heart or the stomach. The time has passed when it was necessary to take dangerous drugs and narcotics for these irritating complaints. 'ASPRO' is safe, sure and effective in action—you can take it anywhere—at any time. The fact that after ingestion in the system 'ASPRO' is an anti-pyretic or fever-reducer — an anti-periodic — a germicide — an internal antiseptic and a solvent of Uric Acid, makes it one of the most useful medicines ever given to mankind. Its purity and efficiency is vouched for by doctors and nurses all over the world.
